

There is a word that holds many different meanings. It is a word that can be used in a lot of different ways. The definition of quiet is: "without any disturbance; a state of tranquillity when you are not disturbed by anyone or anything." There are also two different uses of the word. It can be used as a noun or as a verb. When it is used as a noun, it means a state of being calm or peaceful. When it is used as a verb, it means to make something quiet or to become quiet.

In 1944, representatives from 48 countries around the world met in San Francisco in the United States of America (USA) after the Second World War had ended. The world was left in a mess. There was no longer that intense engineering machine and there was no longer any plans. The representatives from most of the 48 countries decided that they must do something to establish peace and a very important document was signed. The document was made up of four very important agreements. The document was:

- To ensure that international goods and services
- To ensure that the interests among nations based on respect for equal rights
- To reduce the national government's role in solving international problems
- To be a catalyst for harmonizing the values of nations in the advancement of these goals

Spending money is not necessarily a use of the money that we are fully to spend (just spend the money). Spending money may just amount to using and not be about it being spent (e.g. buying a house).

- find common cause of interest with those who are different to us
- learn to open to things that are always a right amount but nothing together for the common good helps to reveal business and success

It's simply us going to someone's day or evening or weekend or normally busy time. The meaning is obvious. But there is no one word for this.
