

Security And Strategy In The New Europe

F. Carr, Theresa Callan

Security And Strategy In The New Europe:

Security and Strategy in the New Europe Colin McInnes, 2002-09-11 The thawing of the Cold War has brought new concerns over the nature of European security to the fore and uncovered major differences in the approaches of individual states to changed circumstances This book clarifies the options for a new European security order and contribute to the growing debate It adopts a medium term analytical approach and uses a three tier format covering the nature and structure of security and the security implications of Europe s resurgent nationalism security strategy with particular reference to the NATO perspective and to the European Community and the distinctive security concerns of individual states It looks at both Eastern and Western Europe and at the Soviet Union and it analyses the role of the United States in European security The thawing of the Cold War has brought new concerns over the nature of European security to the fore and uncovered major differences in the approaches of individual states to changed circumstances

Security and Strategy in the New Europe Colin McInnes, 1992 How have priorities for European security changed in the wake of the cold war Can existing security institutions meet the challenges of the 1990s

The New European Security Disorder S. Duke, 1994-10-07 The New European Security Disorder presents a clear and comprehensive overview of the main actors institutions and changes in European security since the end of the Cold War Special emphasis is put on the assessment of threats to Europe s security the lack of coherent leadership in Bosnia and elsewhere and the need for pan European security institutions

Military Strategies of the New European Allies Håkan Edström, Jacob Westberg, 2022-12-30 This book analyses how and to what extent ex communist states have adjusted their defence strategies since joining the EU and NATO and how differences and similarities between their strategies can be explained Between 1999 and 2013 four phases of enlargement took place when the European Union EU and NATO allowed 11 new former communist states to enter both organisations These states share some common attributes and experiences related to strategic culture and common experiences during the Cold War era that can potentially explain similarities in behaviour and preferences among them However the strategic adjustments among these states are far from uniform In an effort to explain these differences the book introduces three intervening variables 1 differences in relative power and position in the international system 2 national geographical characteristics and 3 historical experiences related to formative periods of state building processes as well as wars and armed conflicts Empirically the book strives to present and analyse the defence strategies of each of the new allies by conducting a structured focused comparison of official strategic documents from the twenty first century for each of the 11 cases Theoretically and methodologically it introduces an analytical framework enabling us to explain both similarities and differences in the formulation of the strategies of the 11 states and to shed light on their external and internal efforts to promote their strategic interest by operationalising the dependent variable defence strategy The analytical framework combines elements of structural realism with classical realism and constructivist research on unit level characteristics related to relative power and perceptions of

strategic exposure This book will be of much interest to students of strategic studies European Union policy NATO and International Relations in general

Old Europe, New Europe and the Transatlantic Security Agenda Kerry Longhurst, Marcin Zaborowski, 2013-09-13 The post September 11th security policies of Poland the UK France the US and Germany presented in this new book illustrate how and why the Atlantic community ruptured over Iraq a result in part it is argued of the existence of particular national strategic cultures Whilst the longer term effects of Iraq for the transatlantic security agenda have yet to fully transpire what is certain is that the EU's ambitions to become a credible security actor have been seriously questioned as has the notion of multilateralism as an international norm as has the function of international law The book addresses these issues by considering the evolution of the EU's role in the world and the development of American perspectives on the transatlantic security agenda This volume was previously published as a special issue of the journal *European Security*

The New Europe, 1992 *Security in the New Europe* Andrew Cottey, 2007-08-15 Following the end of its Cold War division Europe's traditional security problem of war between European states is being displaced by a new set of challenges with which peoples governments and organizations like the EU and NATO are only beginning to come to terms This broad ranging new text develops a comprehensive framework for understanding the key security issues and dilemmas confronting Europe in the twenty first century

Old Europe, New Europe and the US Tom Lansford, 2017-07-05 Iraq can be considered the perfect storm which brought out the stark differences between the US and Europe The disagreement over the role of the United Nations continues and the bitterness in the United States against its betrayal by allies like France is not diminishing Meanwhile the standing of the United States among the European public has plummeted Within Europe political tensions between what US Secretary of Defense Donald Rumsfeld euphemistically called the Old Europe and the New Europe continue to divide To fully comprehend these rifts this volume takes a specific look at the core security priorities of each European state and whether these interests are best served through closer security collaboration with the US or with emerging European structures such as the European Rapid Reaction Force It analyzes the contribution each state would make to transatlantic security the role they envisage for existing security structures such as NATO and the role the US would play in transatlantic security

European Security in a Global Context Thierry Tardy, 2010-06-09 This new edited volume examines contemporary European security from three different standpoints It explores security dynamics first within Europe second the interaction patterns between Europe and other parts of the world the United States Africa the Middle East China and India and finally the external perceptions of European security The first part of the book analyses the European security landscape The roles of EU NATO and the OSCE are given particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia's repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between

Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general Managing Conflict in the New Europe F. Carr, Theresa Callan, 2015-12-22 Since the end of the Cold War international institutions have had to rise to challenges of instability and insecurity in Europe Fergus Carr and Theresa Callan examine the changing nature of European security cooperation and conflict A key theme is the development of the new European security architecture and the roles of NATO the Organization for Security and Cooperation in Europe the European Union and the United Nations as security providers in contemporary Europe
