Security Strategy And The Logic Of Chinese Foreign Policy:

Security, Strategy, and the Logic of Chinese Foreign Policy Jonathan D. Pollack, 1981 *The Spirit of Chinese Foreign Policy* Chih-yu Shih, 1990-06-18 This psychological interpretation of Chinese diplomatic history considers both the universal psychocultural processes and the uniqueness of China as a nation It also attempts to establish some interaction between social science and Sinology and examines behaviour by Chinese statesmen *Chinese National Security Decisionmaking Under Stress* Andrew Scobell, 2005 If there is one constant in expert analyses of the history of modern China it is the characterization of a country perpetually in the throes of crises While China at the mid point of the Twenty first Century s first decade is arguably the most secure and stable it has been in more than a century crises continue to emerge with apparent frequency Consequently the study of china s behavior in conditions of tension and stress is of considerable importance to policy makers and analysts around the world **The Sino-Vietnamese Approach to Managing Boundary Disputes** Ramses Amer, 2002 **The Making of Chinese Foreign and Security Policy in the Era of Reform** David M. Lampton, 2001 This is the most comprehensive in depth account of how Chinese foreign and security policy is made and implemented during the reform era It includes the contributions of more than a dozen scholars who undertook field research in the People s Republic of China South Korea and Taiwan *The Chinese Defense Establishment* Paul H. B. Godwin, 2019-06-18 Complex issues of national security and defense modernization continue to be a major preoccupation of the PRC leadership In the 1970s especially during the second half of that crucial decade critical decisions were made that led to Beijing s alignment with the West against the USSR and a revitalization of its armed forces This book looks at Chi *Beautiful Imperialist* David Shambaugh, 2021-03-09 From President Nixon s historic visit to China in 1972 to the aftermath of the Tiananmen tragedy this book examines the changing perceptions of the United States articulated by China s America Watchers whose occupation is to interpret the beautiful imperialist for China s elite and public While other studies have looked at the behavioral history of U S China relations this is the first to probe the perceptual dimension **China's Just World** Zhiyu Shi, 1993 Looking at China s foreign policy this book focuses on the Confucian based need of Chinese leaders to present themselves as the supreme moral rectifiers of the world order *New Directions in Strategic Thinking* Robert O'Neill, D.M. Horner, 2021-01-26 This book first published in 1981 examines the broader aspects of international strategic relations and analyses Cold War developments within particular nations fields of warfare and areas of political military interaction The role of force in international society changed as the nuclear deadlock between the superpowers continued with military forces being deployed for political purposes in situations only just short of war The balance between NATO and Warsaw Pact forces also changed as American technology increased and short range nuclear missiles were deployed in Europe This book also examines the development of strategic thinking in China Japan and India as well as insurgency in the Third World so often the site for proxy superpower conflict *Shaping China's Future In World Affairs*

Robert G Sutter, 2019-06-26 This book considers Chinese foreign policy and China's future role in world affairs in the context of the country's recent past. Robert Sutter shows that although it appears to be in U.S. interests for post-Mao leaders to continue moving toward international norms, a post-Deng leadership backed by growing economic and military power and reflecting profound changes in China's economy and society could move in markedly different directions. Most foreign powers appear willing to accommodate China, avoiding actions that could prompt a sharp shift in Chinese foreign policy, but Sutter argues that current U.S. policy intrudes on so many issues that are particularly sensitive for Beijing and for China's future that it represents perhaps the most critical variable determining how China will position itself in world affairs. Concluding that there is no guarantee the United States will use this influence wisely, Sutter examines the uncertainty and unpredictability of U.S. foreign policy in the post-Cold War environment that work against the creation of an effective U.S. policy toward China.
