**Handbook of Research on Information and Cyber Security in the Fourth Industrial Revolution** Fields,  
Ziska, 2018-06-22 The prominence and growing dependency on information communication technologies in nearly every  
aspect of life has opened the door to threats in cyberspace Criminal elements inside and outside organizations gain access to  
information that can cause financial and reputational damage Criminals also target individuals daily with personal devices  
like smartphones and home security systems who are often unaware of the dangers and the privacy threats around them The  
Handbook of Research on Information and Cyber Security in the Fourth Industrial Revolution is a critical scholarly resource  
that creates awareness of the severity of cyber information threats on personal business governmental and societal levels  
The book explores topics such as social engineering in information security threats to cloud computing and cybersecurity  
resilience during the time of the Fourth Industrial Revolution As a source that builds on available literature and expertise in  
the field of information technology and security this publication proves useful for academicians educationalists policy makers

**Regulating the Security Industry** Mahesh Nalla, Tim Prenzler, 2020-01-24 It is widely acknowledged that the size of the  
security industry has increased in virtually every country around the world often eclipsing conventional police forces in  
personnel numbers and expenditures Security providers differ from law enforcement officers in many ways yet the nature of  
their crime reduction activities brings them into frequent contact with citizens drawing to the forefront issues of training  
professionalism and accountability Unlike police officers whose training and licensing standards are well established  
regulations for security providers are often minimalist or entirely absent This volume brings together research on regulatory  
regimes and strategies from around the globe covering both the large private security sector and the expanding area of  
public sector non police protective security It examines the nature and extent of licensing and monitoring and the minimum  
standards imposed on the industry by governments across the world The chapters in this book were originally published in  
the International Journal of Comparative and Applied Criminal Justice
