longer as of 2016 about 80 years A much larger proportion of Americans now die from chronic diseases that generally appear at an advanced age such as heart disease cancer or chronic obstructive pulmonary disease COPD Should this fundamental change in human lifespan alter how society and government view right to die legislation What are the pros and cons of giving a mentally competent person who is terminally ill and in great pain the right to end his or her life The Right to Die A Reference Handbook provides a complete examination of right to die issues in the United States that dissects the complex arguments for and against a person's liberty to receive a physician's assistance to hasten death It covers the legal aspects and the politics of the right to die controversy analyzes the battles over the right to die in state and federal courts and supplies primary source documents that illustrate the political medical legal religious and ethical landscape of the right to die Additionally the book examines how members of our society typically die has changed in the past 150 years and how the practice of medicine has evolved over that time explains why the right to die is strongly opposed by many religious groups as well as members of the medical profession considers the slippery slope argument against doctor assisted suicide and identifies the reasons that the disabled the poor the elderly and infirm and some members of ethnic racial and religious minority groups typically fear physician assisted death

Suicide in America Herbert Hendin, 1996-02 Who commits suicide in this country and why Should we legalize assisted suicide and euthanasia What has the last decade taught us about those who are suicidal In this new edition of his acclaimed work Dr Herbert Hendin addresses these and other important questions Demonstrating that treatment of seriously suicidal people is possible he also shows how our social policy toward suicide is marked by misconception He evaluates the right to die movement and in a comprehensive new chapter he presents a powerful portrait of euthanasia and assisted suicide in the Netherlands Interviews with the leading practitioners and proponents are included This book integrating psychological and social knowledge has much to say not only about how we die but also about how we choose to live
