Seed Provision And Agricultural Development:

Seed Provision & Agricultural Development Robert Tripp, 2001 Examines origins growth and performance of seed provision systems and relates Seed Provision & Agricultural Development Robert Tripp, 2001 This work investigates the strengths and weaknesses of seed management in traditional farming systems **African Seed Enterprises** Paul van Mele, Robert G. Guéi, 2011 In most developing countries good quality seed is hard to obtain and farmers struggle to save seed from one year to the next This title takes a people centred look at the companies public agencies and family farms that are taking on this role and making a difference to food security across Africa **Participatory Plant Breeding: Concept and Applications** Atul Bhargava, Shilpi Srivastava, 2019-04-13 Plant breeding has played a significant role in the development of human civilizations Conventional plant breeding has significantly improved crop yield by genetically manipulating agronomically important traits However it has often been criticized for ignoring indigenous germplasm failing to address the needs of the marginal and the poor farmers and emphasizing selection for broad instead of local adaptation Participatory plant breeding PPB is the process by which the producers and other stakeholders are actively involved in a plant breeding programme with opportunities to make decisions throughout The Working Group on Participatory Plant Breeding PPBwg was established in 1996 under the framework of the Consultative Group on International Agricultural Research CGIAR Research in PPB can promote informed participation and trust in research among consumers and producers and in recent years PPB has had a significant impact on food production by quickly and cost effectively producing improved crop varieties At the same time there has been significant research in the area PPB offers significant advantages that are particularly relevant to developing countries where large investments in plant breeding have not led to increased production especially in the marginal environments In addition to the economic benefits participatory research has a number of psychological moral and ethical benefits which are the consequence of a progressive empowerment of the farming communities PPB can empower groups such as women or less well off farmers that are traditionally left out of the development process This book explores the potential of PPB in the coming decades The topic is more relevant since international breeding efforts for major crops are aimed at decentralizing local breeding methods to better incorporate the perspective of end users into the varietal development process The first book incorporating the upcoming research on this novel breeding approach it reviews the important tools and applications of PPB in an easy to read succinct format with illustrations to clarify these complex topics It provides readers with a basic idea of participatory plant breeding as well as advances in the field and insights into the future to facilitate the successful integration of farmers into breeding programmes This book is a valuable reference resource for agriculturists agricultural advisers policy makers NGOs post doctoral students and scientists in agriculture horticulture forestry and botany **Seed Policy and Programmes in the Near East and North Africa** , 2000-01-01 This publication presents the proceedings of the Regional Technical Meeting on Seed Policy and Programmes in the Near East and North

Africa held in Larnaca Cyprus from 27 June to 2 July 1999 The meeting was organised by the Agricultural Research Institute in Nicosia Cyprus in collaboration with the Seed and Plant Genetic Resources Service of the FAO In line with the Rome Declaration on World Food Security and the World Food Summit Plan of Action the meeting recognised that one of the major challenges facing most countries in the Near East and North Africa is the need to invest significant resources in strengthening their capacity to increase the availability of good quality seeds of a wider range of plant varieties This will contribute to the maximisation of both agrobiodiversity and productivity in order to achieve national food security while reducing environmental degradation and the depletion of natural resources The meeting proposed and agreed to establish a Regional Consultative Forum on Seed Policy and Programmes for the Near East and Africa CFS NENA The forum will facilitate intercountry scientific and technical co operation on seed production and supply and promote crop genetic resources evaluation conservation and utilisation in the region

Assessing the constraints affecting production and deployment of maize seed in DTMA countries of West Africa , International law of relevance to plant genetic resources: a practical review for scientists and other professionals working with plant genetic resources Susan Bragdon,2004 History and development The FAO global system for the conservation and sustainable use of plant genetic resources for food and agriculture The International treaty on plant genetic resources for food and agriculture The Convention on Biological Diversity Origin and movement of OGR implications for access and benefit sharing policies The TRIPS agreement UPOV Phytosanitary and biosafety measures Development and improvement of genetic resources Cross cutting issues Economic issues *Seed Policy, Legislation and Law* Neils P Louwaars,2002-08-23 Learn what it takes to create and implement a truly successful seed policy This unique book brings together international experts on seed policy and law While other books approach the subject from the perspective of seed industry development and privatization *Seed Policy Legislation and Law* makes clear that a successful national seed Innovation in India Shyama V. Ramani,2014-07-14 It has been a little more than sixty years since the foundations of India s national system of innovation were laid and it is time to look back and examine what form it has taken What are the achievements of the Indian system of innovation How has it performed in terms of building industrial capabilities and promoting development Using the National System of Innovation and the Sectoral System of Innovation approach this book organizes historical evidence on the accumulation of scientific technical innovation and industrial capabilities in different industrial sectors It is also useful to keep in mind that according to the sectoral tales of this book irrespective of the policy there will always be some individuals and organisations who will experiment to find creative ways of pursuing opportunities *More than a resource - the social significance of local seed systems and seed exchange in the Global South* Jonas Metzger,2023-05-31 Seeds are at the heart of a transformation process that affects more than two billion people worldwide This study on smallholder farmers in Tanzania examines how local seed systems are anchored in the socio cultural structures of smallholder life worlds Using the example of seeds the close

interweaving of agricultural and social practice is traced and it is worked out how individual processes of modernisation brought in from outside have far reaching consequences for smallholder coexistence The study provides a concrete detailed and differentiated account of everyday farming life and of how smallholder households deal with seeds A particular focus is on seed exchange relationships and how these provide both social security and social cohesion in the study region The study is based on extensive field research and intensive interviews with farmers who also have their own say in the work
