Seeing Berger A Reevaluation Of Ways Of Seeing By Fuller Peter:

Seeing Berger Peter Fuller,1981 In this incisive counter polemic Peter Fuller underlines what is most valuable in Berger's criticism while attacking the art ideologists who would negate the existence of any aesthetic experience He succinctly argues the case for a materialistic understanding of art and its value which moves beyond ideology and permits one to confront the masterpiece the work of art which breaks free from the norms of tradition and transcends its time back cover

An Analysis of John Berger's Ways of Seeing Emmanouil Kalkanis,2018-02-21 Ways of Seeing is a key art historical work that continues to provoke widespread debate It is comprised of seven different essays three of which are pictorial and the other containing texts and images Berger first examines the relationship between seeing and knowing discussing how our assumptions affect how we see a painting He moves on to consider the role of women in artwork particularly regarding the female nude The third essay deals with oil painting looking at the relationship between subjects and ownership Finally Berger addresses the idea of ownership in a consumerist society discussing the power of imagery in advertising with particular regards to photography

Abstraction in Post-War British Literature 1945-1980 Natalie Ferris,2022-03-29 In a catalogue note for the 1965 exhibition Between Poetry and Painting at the Institute of Contemporary Arts the poet Edwin Morgan probed the relationship between abstraction and literature Abstract painting can often satisfy but abstract poetry can only exist in inverted commas Language may be fragmented rearranged or distorted abstract in so far as it is withdrawn from a particular system of knowledge but Morgan was of the mind that to be wholly disruptive was to deprive a poem of its point as an object of contemplation Whilst abstract art may have come to fulfil or fortify an impression of post war taste abstraction in literature continued to be treated with suspicion But how does this speak to the extent to which Britain's literary culture was responsive to progress compared to its artistic culture Abstraction in Post War British Literature 1945 1980 traces a line of literary experimentation in post war British literature that was prompted by the aesthetic philosophical and theoretical demands of abstraction Spanning the period 1945 to 1980 it observes the ways in which certain aesthetic advancements initiated new forms of literary expression to posit a new genealogy of interdisciplinary practice in Britain At a time in which Britain became conscious of its evolving identity within an increasingly globalised context this study accounts for the range of Continental and Transatlantic influences in order to more accurately locate the networks at play Exploring the contributions made by individuals such as Herbert Read Ian Hamilton Finlay and Christine Brooke Rose as well as by groups of practitioners It brings a wide range of previously unexplored archival material into the public domain and offers a comprehensive account of the evolving status of abstraction across cultural institutional and literary contexts

The Iconography of Landscape Denis Cosgrove,Stephen Daniels,1988 This book first published in 1988 draws together fourteen scholars from diverse disciplines to explicate the status of landscape as a cultural image

Making Sense Ralf Hertel, 2021-07-26 Fiction is fascinating All it provides us with is black letters on white pages yet while we read we do not have the impression that we are merely perceiving abstract characters Instead we see the protagonists before our inner eye and hear their voices Descriptions of sumptuous meals make our mouths water we feel physically repelled by depictions of violence or are aroused by the erotic details of sexual conquests We submerge ourselves in the fictional world that no longer stays on the paper but comes to life in our imagination Reading turns into an out of the body experience or rather an in another body experience for we perceive the portrayed world not only through the protagonist's eyes but also through his ears nose tongue and skin In other words we move through the literary text as if through a virtual reality How does literature achieve this trick How does it turn mere letters into vividly experienced worlds This study argues that techniques of sensuous writing contribute decisively to bringing the text to life in the reader's imagination In detailed interpretations of British novels of the 1980s and 1990s by writers such as John Berger John Banville Salman Rushdie Jeanette Winterson or J M Coetzee it uncovers literary strategies for turning the sensuous experience into words and for conveying it to the reader demonstrating how we make sense in and of literature Both readers interested in the contemporary novel and in the sensuousness of the reading experience will profit from this innovative study that not only analyses the interest of contemporary authors in the senses but also pin points literary entry points for the sensuous force of reading
