Seeing Writing:

Seeing and Hearing Dag Heward-Mills, 2022 In order to serve God people do all sorts of things Some go to Bible school some go to secular schools some give offerings to men of God and some pray and fast However none of these activities compares with the important art of seeing and hearing Seeing and hearing is the application of the knowledge you have received Seeing and hearing is the practical way to receive more of God into your life In this extremely perceptive book by pastor teacher and prolific author Dag Heward Mills he shares things that he has seen and heard He shares things that he has experienced practically He teaches us how to acquire the wisdom of seeing and hearing Do you want to become a wise son who gives himself to the art of seeing and hearing Then this book is for you *Seeing Chekhov* Michael C. Finke, 2005 Chekhov's keen powers of observation have been remarked by both memoirists who knew him well and scholars who approach him only through the written record and across the distance of many decades To apprehend Chekhov means seeing how Chekhov sees and the author's remarkable vision is understood as deriving from his occupational or professional training and identity But we have failed to register let alone understand just what a central concern for Chekhov himself and how deeply problematic were precisely issues of seeing and being seen from the Introduction Michael C Finke explodes a century of critical truisms concerning Chekhov's objective eye and what being a physician gave him as a writer in a book that foregrounds the deeply subjective and self reflexive aspects of his fiction and drama In exploring previously unrecognized seams between the author's life and his verbal art Finke profoundly alters and deepens our understanding of Chekhov's personality and behaviors provides startling new interpretations of a broad array of Chekhov's texts and fleshes out Chekhov's simultaneous pride in his identity as a physician and devastating critique of turn of the century medical practices and ideologies *Seeing Chekhov* is essential reading for students of Russian literature devotees of the short story and modern drama and anyone interested in the intersection of literature psychology and medicine *Writing for Theatre* Kim Wiltshire, 2015-12-01 Writing for theatre is a unique art form different even from other kinds of scriptwriting Making theatre is a truly collaborative process which can be a tricky aspect to grasp when starting out This book will take you on a journey from the origins of theatre to what it means to write for the stage today It includes a series of interviews with writers directors and dramaturgs all of whom are making theatre now providing an unrivalled glimpse into the world of contemporary theatre making Kim Wiltshire explores the foundations traits and skills necessary for playwriting alongside the creative possibilities of writing theatre in the digital age Each part of the book ends with a series of exercises which students of the craft can use to practise their art and stretch their creativity **Textual Imitation: Making and Seeing in Literature** J. Hart, 2012-10-30 Textual Imitation offers a new critique of the space between fiction and truth poetry and philosophy In a nimble yet startlingly wide ranging argument esteemed scholar Jonathan Hart argues that recognition and misrecognition are the keys to understanding texts and contexts from the Old World to the New World **Reading and**

Writing for Pleasure Teresa Cremin, Helen Hendry, Liz Chamberlain, Samantha Jayne Hulston, 2025-09-12 Reading and writing for pleasure represent issues of global concern and interest in policy research and practice underpinned by evidence illustrating their importance for young people's academic, social and emotional experiences and outcomes. In the face of a sustained decline in children's enjoyment in both reading and writing, this highly significant book presents findings from a three-year study of research and practice that nurtures young people's engagement as readers and writers. The book offers a rich understanding of the study, highlighting the commonalities and synergies identified from the research literature and diverse practice contexts. It introduces a new and powerful Reading and Writing Framework for Practice for schools and charitable literacy programmes. The authors offer practical strategies and recommendations throughout for practitioners, researchers and policy makers who wish to advance this agenda in their own contexts. Areas covered include: The nature of reading and writing for pleasure; Literate identities; Motivating readers and writers; Social interactions; Role models and connected communities; Future research practice and policy. This field-defining text is a key resource for all those committed to halting the decline in young people's engagement as volitional readers and writers. *Business Writing For Dummies* Natalie Canavor, 2017-04-05 Business writing that gets results.
