Seeking Asylum The New York Times Editorial Staff,2020-07-15 In 2019 President Donald J Trump upended decades of U S policy and announced that America would not be accepting asylum seekers who travel through Mexico He effectively banned the thousands of men women and children from Central America looking for refuge As American asylum policy has grown more restrictive under the Trump administration thousands have been stranded at borders and within the judicial system This volume features reporting on the human consequences of the growing immigration crisis exploring the factors that drive asylum seekers to American borders and the long complicated path that awaits them as they attempt to find a safe haven Media literacy questions and terms further challenge readers to assess how journalistic principles are applied to the coverage of this vulnerable group

Seeking Asylum Hélène Lambert,2021-09-27 The human and political problems presented by refugees and asylum are acute and are not improving This is reflected in international concern and the existence of a treaty framework The emergent body of refugee law is an amalgam of international regional and national rules and procedures But it is national law and practice particularly with regard to immigration which in reality determines an individual s right to asylum The key to a true appreciation and understanding of the plight of refugees and the extent of their current rights therefore lies in national law and practice

Desperately Seeking Asylum Helen T. Boursier,2019-11-19 Told through heart wrenching testimonies photographs and artwork of refugees fleeing their homelands *Desperately Seeking Asylum* describes firsthand accounts of

the harrowing and dangerous journey immigrants are willing to endure knowing that they might not even make it onto US soil. *Desperately Seeking Asylum* prioritizes the testimonies of refugee families and unaccompanied children who are seeking asylum in the United States from Central America primarily Guatemala, El Salvador and Honduras. Their desperate and heart wrenching stories disclose why they fled their homelands, their experiences along the treacherous overland journey and the harsh reality of how the United States treats these families and children upon arrival to the United States. It critiques US complicity to the violence they are fleeing and discloses how national leadership shapes US immigration policies and practices including the blatant documented violations against asylum seekers at the US Mexico border. Most notably, it offers transparency on US immigration practices at the US Mexico border which violate existing US and international laws that are intended to protect asylum seekers, including the current official practice of blocking bridges with turnbacks to prevent inadmissibles from applying for asylum in the United States. It explains protections mandated by US law for unaccompanied children who are in US custody and discloses violations which keep these children detained excessive lengths of time in substandard for-profit facilities which are overseen by the government and funded by taxpayers. Boursier also deconstructs the complicated asylum process, including examining the credible fear for asylum procedure, showing how technical terms and language are used to justify injustice at the border. *Desperately Seeking Asylum* offers hope for a new vision with alternative options and practical actions which assist migrants through humanitarian aid on both sides of the border. The witness for compassionate and responsible response by people of conscience becomes an antidote to injustice against asylum seekers. Instead of the current administration manipulating US laws to support its ulterior motives and political agenda, Boursier asks readers to hold US elected officials accountable to the same Rule of Law that the United States demands of refugees. Ultimately, Boursier suggests a spectrum of options for practical ways to make the political personal through public witness and civic engagement to transform the broken immigration process for refugees who are desperately seeking asylum.

Seeking Asylum in the UK Colin Harvey, 2000-09 An examination of the emergence of the legal regime in the United Kingdom addressing refugees and asylum seekers. [Seeking Asylum and Mental Health](#) Chris Maloney, Julia Nelki, Alison Summers, 2022-09-01 People seeking asylum face unique challenges and frequently experience mental health problems. This book provides practical guidance for professionals and services working with people seeking asylum in mental health, social care, legal, government, managerial and commissioning roles. depends on reflection humanity and compassion The book is a must have resource for professionals working with those who have to seek asylum

Seeking Asylum Alone Mary Crock, 2006 Unaccompanied and separated children continue to be caught up in programs to deflect unauthorised Australian boat arrivals to offshore processing centres If such children do make it to Australia the processes for identifying children travelling alone are inadequate with too much reliance placed on the self identification of such children No child victim of trafficking has been identified in Australia since 1994 Australia's refugee status determination system was established with adult asylum seekers as the norm Children face obvious disadvantage in both articulating their story and in being heard At the crucial first point of contact with authorities children are required to articulate their need for protection without either an advisor or an effective guardian Case studies of children within the asylum process also suggest that immigration officials and officials at appellate level have been poorly trained and have lacked the skills to deal with child asylum seekers with appropriate sensitivity Another barrier faced by these children is legal questions remain as to how well the international definition of refugee has been read to accommodate the particular experiences of children It is hoped that this report will encourage Australian officials to think seriously about children as refugees in their own right most particularly when the children are travelling alone This Report was funded by the MacArthur Foundation Chicago the Australian Research Council and the Myer Foundation Also available
