Seeking Scientific Explanations for Natural Phenomena Rhyne, Golden, 1992-01-01 **Seeking Scientific Explanations for Natural Phenomena** Pamela J. Rhyne, Ben R. Golden, Joseph M. Dirnberger, 1993-10-01 **Seeking a Scientific Explanation for Natural Phenomena** Pamela J. Rhyne, 1993-06-01 Problematic Research Practices and Inertia in Scientific Psychology James Lamiell, Kathleen Slaney, 2020-11-04 This volume explores the abiding intellectual inertia in scientific psychology in relation to the discipline's engagement with problematic beliefs and assumptions underlying mainstream research practices despite repeated critical analyses which reveal the weaknesses and in some cases complete inappropriateness of these methods. Such paradigmatic inertia is especially troublesome for a scholarly discipline claiming status as a science. The book offers penetrating analyses of many albeit not all of the most important areas where mainstream practices require either compelling justifications for their continuation or adjustments possibly including abandonment toward more apposite alternatives. Specific areas of concern addressed in this book include the systemic misinterpretation of statistical knowledge, the prevalence of a conception of measurement at odds with yet purporting to mimic the natural sciences, the continuing widespread reliance on null hypothesis testing and the continuing resistance within psychology to the explicit incorporation of qualitative methods into its methodological toolbox. Broader level chapters examine mainstream psychology's systemic disregard for critical analysis of its tenets and the epistemic and ethical problems this has created. This is a vital and engaging resource for researchers across psychology and those in the wider behavioural and social sciences who have an interest in or who use psychological research methods. *Science, Politics and Business in the Work of Sir John Lubbock* Mark Patton, 2016-04-01 Sir John Lubbock 1834-1913 first Lord Avebury was a leading figure in the scientific, political and economic world of Victorian Britain and his life provides an illuminating case study into the ways that these different facets were interlinked during the nineteenth century. Born into a Kent banking family, Lubbock's education was greatly influenced by his neighbour Charles Darwin and after the publication of *The Origin of Species* he was one of his most vocal supporters. A pioneer of both entomology and archaeology and a successful author, Lubbock also ran the family bank from 1865 until his death in 1913 and served as a Liberal MP from 1870 until his ennoblement in 1900. In all these roles he proved extremely successful, but it is the inter-relationships between science, politics and business that forms the core of this book. In particular, it explores the way in which Lubbock acted as a link between the scientific worlds of Darwin, Huxley and Tyndall, the political world of Gladstone and Chamberlain and the business world of Edison and Carnegie. By tying these threads together, this study shows the important role Lubbock played in defining and popularising the Victorian ideal of progress and its relationship to society, culture and Empire. **Evolution Vs. Creationism** Eugenie Carol Scott, 2005 Almost eighty years after the Scopes trial, the debate over the teaching of evolution continues to rage. There is no easy resolution; it is a complex topic with profound scientific, religious, educational and legal implications. How can a student or parent understand

this issue which is such a vital part of education Evolution vs Creationism provides a badly needed comprehensive and balanced survey Written by one of the leading advocates for the teaching of evolution in the United states this accessible resource provides an introduction to the many facets of the current debate the scientific evidence for evolution the legal and educational basis for its teaching and the various religious points of view as well as a concise history of the evolution creationism controversy Each of the four sections of Evolution vs Creationism provides a resource that will assist the reader in better understanding these issues The first section addresses the nature of how evolution works as part of the scientific enterprise as well as a summary of the relationship between religious beliefs and science A section on the history of the controversy provides a handy synopsis of the lengthy struggles from before Darwin to the present day between advocates of creationism and the proponents of evolution A collection of primary source documents addressing cosmology law education and religious issues from all sides of the debate constitute the third section The book concludes with a selection of resources for further information for those who wish to study the topic in more depth *Reaching Beyond Faith* IBN

F?R?BI,2015-12-30 Reaching beyond Faith A Modern Mind Reads the Koran takes the reader beyond the realm of pure faith to explore the Koran from an essentially non pietistic point of view and in social historical geographic and above all human contexts Its 14 chapters using some 800 verses from the Koran take a critical look at a wide range of issues from the audience the message of the Koran was meant for to the role of humans in the compilation of the Koran itself from the nature of Gods speech to the human side of the life of the Prophet of Islam from jihad to crime and punishment from the Korans call to piety to the place of women in society from the magnificence of Gods creation to the insignificance of man The rationale of such an exploration should be rather obvious Although the state of the human mind that read the Koran some 1400 years ago may still be evidenced in many parts of the Muslim world most modern Muslims today will be mortally offended if someone were to tell him or her that their minds harked back to those ancient times To them it is impossible to ignore the epochal strides made in human knowledge and circumstance since Mu ammad was first inspired to say Read Evolution Vs.

Creationism Eugenie C. Scott,2009-08-03 Presents the scientific evidence for evolution and reasons why it should be taught in schools provides various religious points of view and offers insight to the evolution creationism controversy

Introduction to the Philosophy of Science Merrilee H. Salmon,Clark Glymour,1999-01-01 Originally published Englewood Cliffs N J Prentice Hall c1992 **DEcolonial Heritage** Aníbal Arregui,Gesa Mackenthun,Stephanie Wodianka,2018 The volume attempts to triangulate three vibrant discourses of our times It combines postcolonial and decolonial readings of cultural conflicts with assessments of ecological dimensions of those conflicts as well as their significance within discourses on natural and cultural world heritage The examples from four continents range from the medieval Middle East already shaken by a convergence of ecological and social disaster to modern imaginary constructions of medieval Vikings the persistence of Indigenous knowledge in the Arctic literary poetics of patrimony and the heritage

politics of Mediterranean urban architecture Authors ask which strategies societies in developing countries use to defend their cultural and ecological uniqueness and integrity while being penetrated by environmental hazards and hegemonizing Western forms of heritage culture or how western societies construct their own past in ways that are sometimes reminiscent of traditional imaginations of a pre modern past petrified eternally in an ideal moment of time Colonial and historical forms of heritagization of human and non human environments the essays show answer to pressing emotional needs for a sense of stability But the desire for nostalgia frequently commodified tends to collide with the similarly pressing need for political and economic survival in a rapidly changing world and in the face of accelerating extraction practices Without being able to solve this dilemma the volume makes an interdisciplinary contribution to taking intellectual stake of the asymmetrical politics and poetics of heritage and collective cultural memory
