Dialectical Rhetoric Bruce McComiskey, 2015-06-26 In *Dialectical Rhetoric* Bruce McComiskey argues that the historical conflict between rhetoric and dialectic can be overcome in ways useful to both composition theory and the composition classroom Historically dialectic has taken two forms in relation to rhetoric First it has been the logical development of linear propositions leading to necessary conclusions a one dimensional form that was the counterpart of rhetorics in which philosophical metaphysical and scientific truths were conveyed with as little cognitive interference from language as possible Second dialectic has been the topical development of opposed arguments on controversial issues and the judgment of their relative strengths and weaknesses usually in political and legal contexts a two dimensional form that was the counterpart of rhetorics in which verbal battles over competing probabilities in public institutions revealed distinct winners and losers The discipline of writing studies is on the brink of developing a new relationship between dialectic and rhetoric one in which dialectics and rhetorics mediate and negotiate different arguments and orientations that are engaged in any rhetorical situation This new relationship consists of a three dimensional hybrid art called dialectical rhetoric whose method is based on five topoi deconstruction dialogue identification critique and juxtaposition Three dimensional dialectical rhetorics function effectively in a wide variety of discursive contexts including digital environments since they can invoke contrasts in stagnant contexts and promote associations in chaotic contexts *Dialectical Rhetoric* focuses more attention on three dimensional rhetorics from the rhetoric and composition community

Lectures on Rhetoric and Belles Lettres , This new edition of Hugh Blair's Lectures on Rhetoric and Belles Lettres edited by Linda Ferreira Buckley and S Michael Halloran answers the need for a complete reliable text The book seeks to generate a renewed interest in Blair by provoking new inquiries into the tradition of belletristic rhetoric and by serving as both aid and incentive to others who may join in the project of improving understanding of this landmark rhetorical scholarship This edition contains forty seven lectures and remains faithful to the text of the 1785 London edition The editors contextualize Hugh Blair's motivations and thinking by providing in their introduction an extended account of Blair's life and era The bibliography of works by and about Blair is an invaluable aid surpassing previous research on Blair Although the extent of its influence cannot be measured fully Blair's Lectures on Rhetoric and Belles Lettres was undoubtedly a primary vehicle for introducing many eighteenth and nineteenth century scholars to classical rhetoric and French belletristic rhetoric its success due in part to the ease with which the lectures combine neoclassical and Enlightenment thought accommodating emerging social concerns Ferreira Buckley and Halloran's extensive treatment revives the tradition of belletristic rhetoric improving the understanding of Blair's place in the study of eighteenth and nineteenth century discourse while finding him relevant in the twenty first century

The Lure of Literacy Michael Harker, 2014-12-03 readers of LiCS will find a strong argument for how understandings of literacy are fundamental to the work that compositionists do making this book useful not only to those doing similar work but also to be shared with colleagues who have less familiarity with literacy studies The Lure of Literacy presents a model of how theories of literacy can be applied to the debates that beset compositionists again and again offering a way out of their unproductive cycles Literacy in Composition The Lure of Literacy promises to transcend the stale and unproductive debate on freshman composition that has gripped English studies for more than a century It is the first book to chart the origin of the discussion from the early twentieth century to the advent of the New Literacy Studies Michael Harker recontextualizes proposals to abolish compulsory composition and reimagines pedagogical conditions in English studies in order to present a different model for first year writing This new model for compulsory composition programs focuses on students attitudes about composition and interrogates the very idea of literacy itself
