Selected Essays on the History of Letter-forms in Manuscript and Print Stanley Morison, 2009 Selected Essays on the History of Letter-forms in Manuscript and Print 2 Volume Set Stanley Morison, 2009-10-29 During his long career Stanley Morison held appointments as typographical adviser to Cambridge University Press to the Monotype Corporation and to The Times where he was responsible both for its radical new design in 1932 and for the standard history of the paper These two volumes bring together the majority of his most lasting essays Many of them pioneering in their day are now classics in their field The collection first published in 1980 spans a period of forty years It includes essays on letter forms in manuscript and in print beginning with those published in *The Flueron* in the 1920s on typefaces in sixteenth century Italy on the development of Latin script on the history of learned presses and on the typography of newspapers **Selected Essays on the History of Letter-forms in Manuscript and Print** Stanley Morison, 2009 **Selected Essays on the History of Letter-forms in Manuscript and Print** Stanley Morison, 1980 *Stanley Morison : Selected Essays on the History of Letter-forms in Manuscript and Print* Stanley Morison, 1981 The Work of Print Lisa M. Maruca, 2012-03-15 The Work of Print traces a shift in the very definition of literature from one that encompasses the material conditions of the production and distribution of books to the more familiar emphasis on the solitary author s ownership of an abstract text Drawing on contemporary accounts of those involved in the trade printers booksellers publishers and distributors Lisa Maruca examines attitudes about the creative process and approaches to the commodification of writing The work of print describes the labors through which literature was produced both the physical labor of making books and the underlying cultural work performed by a set of ideologies about who counted as a maker of texts Printers manuals tracts on typography legal documents and booksellers autobiographies reveal that print workers conceived of their roles as central to the production of literature Maruca s insightful readings of these documents alongside traditional works of fiction and authors correspondence show that the claims of print workers and booksellers were part of a struggle for ownership and control as the concept of author as proprietor of his or her intellectual property began to take hold in the mid 1700s gradually eclipsing print workers contributions to the process of textual creation The print trade asserted its authority using a rhetoric of hierarchical and binary sexuality and gender which affected women working in the industry and limited the type of work they were allowed to perform In response women developed strategies to redeploy conventional ideas of gender to gain concessions for themselves as publishers and distributors of printed material strategies that formed a foundation for the rise of female authorship later in the eighteenth century Encompassing the histories of literature labor technology publishing and gender The Work of Print ultimately offers significant insights into the ideology of authorship and intellectual property and our understanding of textuality and print in the digital age Manuscript and Print in the Islamic Tradition Scott Reese, 2022-09-06 This volume explores and calls into question certain commonly held assumptions about writing and

technological advancement in the Islamic tradition In particular it challenges the idea that mechanical print naturally and inevitably displaces handwritten texts as well as the notion that the so called transition from manuscript to print is unidirectional Indeed rather than distinct technologies that emerge in a progressive series one naturally following the other they frequently co exist in complex and complementary relationships relationships we are only now starting to recognize and explore The book brings together essays by internationally recognized scholars from an array of disciplines including philology linguistics religious studies history anthropology and typography whose work focuses on the written word channeled through various media as a social and cultural phenomenon within the Islamic tradition These essays promote systematic approaches to the study of Islamic writing cultures writ large in an effort to further our understanding of the social cultural and intellectual relationships between manuscripts printed texts and the people who use and create them

Cultural Graphology Juliet Fleming, 2018-05-02 Cultural Graphology could be the name of a new human science this was Derrida's speculation when in the late 1960s he imagined a discipline that combined psychoanalysis deconstruction and a commitment to the topic of writing He never undertook the project himself but did leave two brief sketches of how he thought cultural graphology might proceed In this book Juliet Fleming picks up where Derrida left off Using both his early and later thought and the psychoanalytic texts to which it is addressed to examine the print culture of early modern England she drastically unsettles some key assumptions of book history Fleming shows that the single most important lesson to survive from Derrida's early work is that we do not know what writing is Channeling Derrida's thought into places it has not been seen before she examines printed errors spaces and ornaments topics that have hitherto been marginal to our accounts of print culture and excavates the long forgotten reading practice of cutting printed books Proposing radical deformations to the meanings of fundamental and apparently simple terms such as error letter surface and cut Fleming opens up exciting new pathways into our understanding of writing all told
