Loren Eiseley A Modern Ishmael:

Loren Eiseley Peter Heidtmann,1991 *The Firmament of Time* Loren Eiseley,2016-11-15 A lyrical and meditative tour de force that traces the evolution of man and science including the rise of scientific inquiry In *The Firmament of Time* nominated for a National Book Award Loren Eiseley offers a series of brilliant provocative excursions through the history of science A paleontologist with the soul and skill of a poet he reflects on the many ways in which the quest for knowledge has been shaped by the changing cultures in which it emerged and developed Examining the role of metaphor in scientific thought anticipations of scientific discoveries in the works of poets and novelists and the unconscious conformity of scientific theory to prevailing orthodoxies he argues for the ongoing relevance of dreams the imagination and the irrational to scientific progress *Artifacts and Illuminations* Tom Lynch,Susan Naramore Maher,2012-04-01 Loren Eiseley 1907-77 is one of the most important American nature writers of the twentieth century and an admired practitioner of creative nonfiction A native of Lincoln Nebraska Eiseley was a professor of anthropology and a prolific writer and poet who worked to bring an understanding of science to the general public incorporating religion philosophy and science into his explorations of the human mind and the passage of time As a writer who bridged the sciences and the humanities Eiseley is a challenge for scholars locked into rigid disciplinary boundaries *Artifacts and Illuminations* the first full length collection of critical essays on the writing of Eiseley situates his work in the genres of creative nonfiction and nature writing The contributing scholars apply a variety of critical approaches including ecocriticism and place oriented studies ranging across prairie urban and international contexts Contributors explore such diverse topics as Eiseley's use of anthropomorphism and Jungian concepts and examine how his work was informed by synecdoche Long overdue this collection demonstrates Eiseley's continuing relevance as both a skilled literary craftsman and a profound thinker about the human place in the natural world *A Final Story* Nasser Zakariya,2017-11-14 Popular science readers embrace epics the sweeping stories that claim to tell the history of all the universe from the cosmological to the biological to the social And the appeal is understandable in writing these works authors such as E O Wilson or Steven Weinberg deliberately seek to move beyond particular disciplines to create a compelling story weaving together natural historical events scientific endeavor human discovery and contemporary existential concerns In *A Final Story* Nasser Zakariya delves into the origins and ambitions of these scientific epics from the nineteenth century to the present to see what they reveal about the relationship between storytelling integrated scientific knowledge and historical method While seeking to transcend the perspectives of their own eras the authors of the epics and the debates surrounding them are embedded in political and social struggles of their own times struggles to which the epics in turn respond In attempts to narrate an approach to a final true account these synthesizing efforts shape and orient scientific developments old and new By looking closely at the composition of science epics and the related genres developed along with them we are able to view the historical narrative of science as a form of knowledge itself one that discloses much

about the development of our understanding of and relationship to science over time

The Invisible Pyramid Loren Eiseley, 2016-11-15 A revered ecologist and conservationist examines the origins and possible futures of humankind within the context of the Space Age masterfully communicating the awesome spectacle of our environmental crisis New York Times Book Review To read Loren Eiseley is to renew a sense of wonder at the miracles and paradoxes of evolution and the ever changing diversity of life In this brilliant collection he considers the cosmological significance and ultimate meanings of our evolutionary history offering a series of profound lyrical meditations on the origins and possible futures of humankind against the backdrop of the Apollo landings As Western civilization attains new heights of scientific awareness and technological skill he asks is it also blind to its own limits and destructive capacities Always a fond observer of the natural world Eiseley makes a newly urgent environmentalist plea in *The Invisible Pyramid* we must protect the fragile world island against our unchecked power to pollute and consume it A relentless haunting and haunted figure devils the man Eiseley and twists from him some of the best prose we have Eiseley is a master of significant anecdote There is an unstated but real gothic terror prowling behind his vision New York Times Book Review

All the Strange Hours Loren C. Eiseley, 2000-01-01 A native of Lincoln Nebraska Loren Eiseley began his lifelong exploration of nature in the salt flats and ponds around his hometown and in the mammoth bone collection hoarded in the old red brick museum at the University of Nebraska where he conducted his studies in anthropology It was in pursuit of this interest and in the expression of his natural curiosity and wonder that Eiseley sprang to national fame with the publication of such works as *The Immense Journey* and *The Firmament of Time* In *All the Strange Hours* Eiseley turns his considerable powers of reflection and discovery on his own life to weave a compelling story related with the modesty grace and keen eye for a telling anecdote that distinguish his work His story begins with his childhood experiences as a sickly afterthought weighed down by the loveless union of his parents From there he traces the odyssey that led to his search for early postglacial man and into inspiriting philosophical territory culminating in his uneasy achievement of world renown Eiseley crafts an absorbing self portrait of a man who has thought deeply about his place in society as well as humanity's place in the natural world
