After reviewing the available evidence from this extensive case study the author concludes that these conducted energy

of running the largest hospital and jail system in the world and argues that such received wisdom is a drastic mischaracterization of the way that states govern urban poverty at the turn of the 21st century Rather than focus on our underinvestment of health and overinvestment of criminal justice his idea of redistributing the poor draws attention to how state agencies circulate people between different institutional spaces in such a way that generates revenue for some agencies cuts costs for others and projects illusions that services have been legally rendered By centering the state s use of redistribution Lara Mill n shows how certain forms of social suffering the premature death of mainly poor people of color are not a result of the state s failure to act but instead the necessary outcome of so called successful policy *Grants for Religion, Religious Welfare, & Religious Education* ,2006 **Qualitative Research Methods for Media Studies** Bonnie S.
