Lost Christianity A Journey Of Rediscovery To The Center Of Christian Experience:

Lost Christianity, 1982 **Lost Christianity** Jacob Needleman, 1990 This classic work on the Christian message speaks directly to all who seek genuine religious experience **The Sermon on the Mount, the Twelve Steps, and the Royal Road** Daniel Hazelwood, 2018-04-13 In *The Sermon on the Mount the Twelve Steps and the Royal Road* Dan Hazelwood presents a unique blend of early church Christianity and the twelve step recovering program that explains how the Christian experience changed over the last four hundred years and how the twelve step process reconnects a spiritually seeking person to a deeper Christ experience that many mainstream churches cannot duplicate In preparation for this journey into studying the sermon he takes the reader on a historical church odyssey and highlights significant philosophical church and secular events that not only affected Christian thought but also were significant in altering how current Christians view Christ He also demonstrates why early Christians viewed Christ differently By providing this background he prepares the reader to study the sermon in a manner the early church did while simultaneously demonstrating why the twelve steps represent a reconnection to an almost lost and forgotten Christ experience Complementing this journey is an exhaustive examination of biblical Greek so that the reader may gain a deeper understanding of the sermon in its original majestic splendor This challenging and thought provoking book unlocks the deeper meanings of many biblical passages and greatly enhances a spiritual seekers walk **Meditation in Christianity** Swami Rama, 1983 A collection of essays providing seven insightful perspectives on meditation in Christianity **The Oxford Handbook of Russian Religious Thought** Caryl Emerson, George Pattison, Randall A. Poole, 2020 A comprehensive collection exploring the role of ideas institutions and movements in the evolution of Russian religious thought Contains cutting edge scholarship that expands understanding of one of the richest aspects of Russian cultural and intellectual life Considers the influence of Russian religious thought in the West and the role of religion in aesthetics music poetry art film and the novel An authoritative reference for students and scholars Book jacket **God's Transforming Work** Nick Papadopoulos, 2011-11-30 A collection of purpose written reflections on Common Worship and the ways it has been used over the ten years of its existence In this volume Nicholas Papadopoulos gathers contributions from distinguished liturgical practitioners to assess its development and reflect upon its usage in this first decade In a series of penetrating and thought provoking essays ten authors consider Common Worship's emergence from earlier liturgical revisions They examine its provisions for the Eucharist baptism and ordination as well as for the Service of the Word The effective use of music and architecture is also considered as are the training needs of worship leaders and the Church's liturgical future Contributors include Michael Perham Angela Tilby Anders Bergquist Jeremy Fletcher Simon Reynolds Richard Giles Jeremy Davies Peter Moger Gilly Myers Foreword by Rowan Williams Archbishop of Canterbury **The Catholic Church and the World Religions** Gavin D'Costa, 2011-04-28 There is no single standard textbook that outlines the official Roman Catholic theological position in relation to other religions which then

explicates this orientation theologically and phenomenologically in relation to the four main religions of the world and the flowering of new religious movements in the west The present project will cover this serious gap in the literature After outlining the teaching of Vatican II and the magisterium since then chapter one each subsequent chapter will be divided equally between a an exposition of the history and features of the religion or movement being studied and b a serious theological analysis of these features showing how these religions do have elements in common as well as how they differ in fundamental ways from Catholicism [Archiv Fur Religionspsychologie/Archive for the Psychology of Religion](#) Jacob A. van Belzen,Nils G. Holm,Ralph W. Hood, Jr.,2004-10 The Archiv f r Religionspsychologie is the oldest medium in the psychology of religion It is the official organ of the Internationale Gesellschaft f r Religionspsychologie International Association for the Psychology of Religion IAPR founded in 1914 Following a reorganization of the IAPR in 2001 the Archiv is now published as an international peer reviewed yearbook The current editorship is shared by Jacob A Belzen Nils G Holm and Ralph W Hood Jr The Archiv f r Religionspsychologie is open to all scientific methodologies quantitative and qualitative as well as to established and innovative conceptual and theoretical perspectives in the psychology of religion **Religious Studies** Walter H. Capps,1995 Since its inception almost 200 years ago the study of religion has informed enlightened provoked and challenged our notions of humanity s deepest beliefs and longings Now Walter Capps nationally recognized for the quality and depth of his teaching has written the first full scale introduction to the history and methods of religious studies To assess the many points of view in this mature but diffuse discipline Capps uses the idea that four basic of fundamental questions and three enduring interests have given formal structure to the study of religion the essence of religion the origin of religion descriptions of religion the function of religion the language of religion comparisons of religion and the future of religious studies In this way Capps relates the chief insights and theories of philosophy anthropology phenomenology sociology and theology of religion and spotlights theorists from Immanuel Kant to Mircea Eliade His valuable text unites in a single narrative and conceptual framework the major methodological proposals for the academic study of religion treats all the major theorists in their respective disciplines schools of thought and intellectual movements treats the whole discipline as a dynamic and evolving tradition Religious Studies constitutes not only an erudite introduction to the field exhibiting vast scholarship and careful assessment but also a bold synthetic proposal for its future *Bad Faith* Tom Drake-Brockman,2019-01-18 Jesus was murdered by the Jewish religious leaders whose power base was the temple of Jerusalem Saul of Tarsus later the Paul of Christianity was one of these and his brand of faith theology mirrored their theology of covenantal entitlement Thus Christianity s basic theological principles derive from those who killed Jesus This is just one of many challenging propositions backed with strong evidence that appear in this book Jesus like most Jews was attuned to faithfulness rather than pure faith to ethical behavior based on human empathy rather than metaphysical beliefs and rituals The central focus of Jesus was hesed the heart of the Jewish covenant with God which linked God s mercy to

human compassion and forgiveness making both mutually interactive This hesed forgiveness was anathema to the temple s faux forgiveness and threatened its very existence Therefore Jesus came not to save us but to show us how to save ourselves Reinterpreting a key parable of Jesus in this light the Parable of the Tares Jesus can be most plausibly understood as an incarnation of Adam the original prototype human who God in Genesis appointed to oversee his creation and guide our spiritual evolution His mission was not about any sacrificial death but about establishing the spiritual humanism of Judaic hesed as the central purpose of human existence

Religious Influences on Health and Well-Being in the Elderly K. Warner Schaie, PhD, Neal Krause, PhD, Alan Booth, PhD, 2004-06-15 What makes the book s approach so captivating is that each chapter is written by a different researcher in the study of religion and health These researchers are responsible for significant portions of the existing literature and methodologies found in this field today The versatility of the book warrants special mention It is effective as a survey of work that has already been done on this topic At the same time it serves as a wellspring of ideas for new research This work makes a valuable contribution to the present understanding of research on religion and health It also serves as a road map to help chart directions for future endeavors in the field Sociology of Religion This volume focuses on the ways in which religious institutions religious practices and religious organizations impact the health and well being of older persons Topics examined include the conceptualization and measurement of religion in late life the relationship between religious coping and possible stress reduction the role of forgiveness as an alternate mediator how social class gender and race can influence the specific effect of religion and religious institutions in a diverse aging society Contributors include L Chatters K Ferraro L K George E Idler S McFadden and K Meador
