Against the Grain Bradley B. Walters, 2008 To rise to the increasingly urgent challenge of understanding the relationship between human beings and the environment, scholars need to step back and re-evaluate their basic premises about how current explanations should shape the form and content of their research. *Against the Grain* addresses a variety of topics in the field of human ecology, including ecological anthropology, evolutionary psychology, environmental history, and geography, and challenges scholars to re-think the adequacy of their methods and assumptions. Andrew P. Vayda concludes the volume with a critical commentary on these issues and more widely on the subject of explanation. The result is an extremely useful and provocative primer for thinking about re-evaluating and rectifying scholarly research.

The Green Agenda in American Politics Robert J. Duffy, 2003. Organizations such as the Sierra Club and Friends of the Earth are familiar to anyone with an interest in environmental protection. As activist groups, they played by the same rules for years. But in 1994 the rules changed. With the Republican takeover of Congress, environmental groups faced sweeping

changes in federal policies that threatened the enforcement of environmental laws. As these organizations intensified their efforts to meet these challenges, they also altered their electoral strategies and political spending patterns. This book traces those actions and shows what they mean for the future of environmentalism in the political arena. While environmental advocacy groups have become bigger and better funded in recent years, so have the corporate interests that compete with them for the attention of public and politicians. *The Green Agenda in American Politics* offers a new look at environmental advocacy that focuses on contemporary lobbying, electioneering, and agenda setting in this new context. Drawing on interviews with activists from a wide range of organizations, Robert Duffy describes what environmental groups actually do when lobbying officials or the public. He examines activity at both national and state levels to emphasize their growing use of websites, email, and action alert networks to conduct more sophisticated grassroots campaigns, and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy, advertising, and public education campaigns. Duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s. He then documents the emergence of more aggressive action after 1994, such as providing campaign services to candidates and mounting voter registration drives. He also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations. Brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular, Duffy's book opens a new window on the influence of Big Money in the supposedly democratic electoral process. *Sierra Educational News*, 1911

Cries of Battle Nathaniel DeZago, 2020-03-23 Princess Sierra Liandri joins the Raptor Battalion with her Royal squad to uncover the threat disrupting the human planetary trading routes. Stalled by their allies, the Viol Nations, Sierra helps discover a faction within the Viol preparing to wipe out humanity. Following Captain Jake Murose, leader of the Raptor Battalion, Sierra realizes her squad is not going to survive the war. With each loss of her sister soldiers, Sierra fights to focus on the war rather than become distracted by her personal struggles. Physically, mentally, and emotionally, Sierra struggles amidst the cries of the war, with humanity's survival, survivor's guilt, and the interests of the heart. *Bound by Truth* Suzanne Cass, 2019-10-15 The calibre of suspense is on par with favourites like Sandra Brown. A woman broken by her past. A cop who'd die to keep her safe. The truth will tear them apart. Journalist Sierra Goldstein finds solace on the wild and beautiful Kangaroo Island after a devastating crash changes her life. But her sanctuary is shattered when a child goes missing, and she becomes involved in the life and death search. Reed Kapua is also looking for a simpler life when he starts work as the new cop on the island, returning to the force after an on-the-job tragedy. But when he investigates a robbery at the home of the intriguing Sierra, complications start to multiply. Reed recruits Sierra after she reveals she investigated a story on two child abductions years ago, believing there might be similarities to this new case. Sierra and Reed work together, racing to figure out the link, their sizzling attraction never far from the surface. When the bones of a second child are uncovered, Sierra becomes the next target of the
