Lost Peace International Relations In Europe 1918 1939:

The lost peace international relations in Europe, 1918-1939 Anthony Adamthwaite, 1980 **British Foreign Policy, 1919-1939** Paul W. Doerr, 1998-05-15 Provides students with a clear narrative overview of the period which will enable them to form critical opinions Introduces students to the historical controversies of the period and communicates the results of recent specialist studies to a student readership in an easily understood manner An accessible clearly written account accompanied by useful bibliography chronology tables and maps and written by an author teaching in the field Britain and Central Europe, 1918-1933 Gábor Bátonyi, 1999-04-01 This book emphasizes the key role played by Britain in restoring peace and stability in central Europe after the First World War It focuses on the endeavours of British diplomats in the 1920s to promote political integration and economic co operation in the Danubia region The work traces the gradual shift in British attitudes towards the small central European states from one of active engagement to disinterest and even hostility Three case studies of British foreign policy in Vienna Budapest and Prague support the novel thesis that British involvement in central European affairs was terminated as a result of Austrian Hungarian and Czechoslovakian unwillingness to co operate and not simply because of economic and political pressures from Germany Germany and Europe 1919-1939 John Hiden, 2014-09-25 This is the only short study in English to survey Germany's foreign policy from a German viewpoint across the entire inter war period The approach which sets Germany in her full European context is not narrowly diplomatic and it gives as much attention to the Weimar years of the 1920s as it gives to the more familiar story of Germany's international relations under the Third Reich John Hiden has now thoroughly revised his text to take account of new scholarship since the book first appeared in 1977 A History of Eastern Europe 1918 to the Present Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe's tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re emerged more virulent than ever This book is the essential textbook for any student of 20th century Eastern Europe *History for the IB Diploma: Peacemaking, Peacekeeping: International Relations 1918-36* Nick Fellows, 2012-07-26 An exciting new series that covers the three prescribed subjects for Paper 1 of the IB 20th

Century World History syllabus This coursebook covers Paper 1 Prescribed Subject 1 Peacemaking Peacekeeping International Relations 1918 36 in the 20th Century World History syllabus for the IB History programme The text is divided into clear sections following the IB syllabus structure and content specifications It offers in depth coverage of the subject as well as detailed study of a wide range of primary and secondary sources to develop students analytical skills It also provides plenty of exam practice including student answers with examiner s comments simplified mark schemes and practical advice on approaching the document based Paper 1 examination

Churchill and His Airmen Vincent Orange,2013-02-19 The author of Dowding of Fighter Command examines the relationships Churchill had with the airmen of the RAF Winston Churchill probably had more impact on 20th century British military history than any other person especially during World War II Yet of the many volumes since that war that deal with his relationships with generals and admirals most surprisingly there seems

not to be a single book devoted to Churchill as a would be pilot and more importantly to the relationships he had with a host of airmen between 1914 and 1945 Exceptional air marshals of his time included Dowding Park Portal Freeman Tedder Coningham and Harris Such men had years of professional expertise behind them and those who had reached the top by 1943 were such strong characters that not even the prime minister could dominate them in policy making Crucially Churchill had supported the independence of the RAF from other services and while he did bully and cajole even abuse his airmen he also listened to them and their plans and inspired them With his expert eye respected historian and professor Vincent Orange has carefully studied and evaluated every detail of Churchill s relationships with his closest officers to produce a masterful analysis of a neglected subject

MacDonald,Joseph M. Parent,2018-04-15 In *Twilight of the Titans* Paul K MacDonald and Joseph M Parent examine great power transitions since 1870 to determine how declining powers choose to behave identifying the strong incentives to moderate their behavior when the hierarchy of great powers is shifting Challenging the conventional wisdom that such transitions push declining great powers to extreme measures this book argues that intimidation provocation and preventive war are not the only alternatives to the loss of relative power and prestige Using numerous case studies MacDonald and Parent show how declining states tend to behave the policy options they have how rising states respond to those in decline and what conditions reward particular strategic choices

Under Fire Michael Bess, 2009-03-12 World War II was the quintessential good war It was not however a conflict free of moral ambiguity painful dilemmas and unavoidable compromises Was the bombing of civilian populations in Germany and Japan justified Were the Nuremberg and Tokyo war crimes trials legally scrupulous What is the legacy bequeathed to the world by Hiroshima With wisdom and clarity Michael Bess brings a fresh eye to these difficult questions and others arguing eloquently against the binaries of honor and dishonor pride and shame and points instead toward a nuanced reckoning with one of the most pivotal conflicts in human history
