Lost Railways of Kent Leslie Oppitz,2003-10-01 Traces the history of the county s railway lines from their opening in the 19th century their heyday at the turn of the century and in many cases their closure in the 20th century **Tracing**

Lost Railways Trevor Yorke,2020-03-19 The drastic railway closures of the 1960s led to the slow decay and re purposing of hundreds of miles of railway infrastructure Though these buildings and apparatus are now ghosts of their former selves countless clues to our railway heritage still remain in the form of embankments cuttings tunnels converted or tumbledown wayside buildings and old railway furniture such as signal posts Many disused routes are preserved in the form of cycle tracks and footpaths This colourfully illustrated book helps you to decipher the fascinating features that remain today and to understand their original functions demonstrating how old routes can be traced on maps outlining their permanent stamp on the landscape and teaching you how to form a mental picture of a line in its heyday *The Railways of the Isle of Sheppey*

Graeme Gleaves,2025-11-04 The Isle of Sheppey s railway network built from 1860 supported its growth but declined due to economic challenges and closures The Isle of Sheppey sits just off the north coast of Kent where the Medway and Thames estuaries flow into the North Sea Over centuries this was a place that was home to farmland castles a dock yard an air station industrial installations calm beaches and a population of islanders who have taken a pride in their home To serve the needs of all of this a small railway network was built up and even an urban tram network Included in this was a fixed link that was the first to ever link the island to the mainland From 1860 the network grew as the importance of the island grew Continental boat passengers dockyard workmen and day trippers they were all carried on the trains and trams that shuttled about to from and across the flat terrain of this often overlooked island Being an island can create its own unique set of challenges and the railways on the island were certainly challenged by misfortune and circumstances but the little network kept going until economics got the better of it and from there on it becomes a story of contractions and closure The Island can still boast a railway today but it is far removed from the story of its past This work seeks to tell the story of the railways on the island how they came to be built how they were run and how times changed over the following decades The

Railway Magazine ,1905 The Early History of Railway Tunnels Hubert Pragnell,2024-08-30 To the early railway traveller the prospect of travelling to places in hours rather than days hitherto was an inviting prospect however a journey was not without its fears as well as excitement To some the prospect of travelling through a tunnel without carriage lighting with smoke permeating the compartment and the confined noise was a horror of the new age What might happen if we broke down or crashed into another train in the darkness To others it was exciting with the light from the footplate flickering against the tunnel walls or spotting the occasional glimpses of light from a ventilation shaft To the directors of early railway

companies planning a route was governed by expense and the most direct way. Avoiding hills could add miles but tunnelling through them could involve vast expense as the Great Western Railway found at Box and the London and Birmingham at Kilsby. Creating a cutting as an alternative was also costly not only in labour and time but also in compensation for landowners who opposed railways on visual and social grounds having seen their land divided by canals. Construction involved millions of bricks or blocks of stone for sufficiently thick walls to withstand collapse. However the entrance barely seen from the carriage window might be an impressive Italianate arch as at Primrose Hill or a castellated portal worthy of the Middle Ages as at Bramhope. This book sets out to tell the story of tunnelling in Britain up to about 1870 when it was a question of burrowing through earth and rock with spade and explosive powder with the constant danger of collapse or flooding leading to injury and death. It uses contemporary accounts from the dangers of railway travel by Dickens to the excitement of being drawn through the Liverpool Wapping Tunnel by the young composer Mendelssohn. It includes descriptions from early railway company guide books, newspapers and diaries. It also includes numerous photographs and colored architectural elevations from railway archives.

Drawn at a scale of 1 inch to 4 miles the maps include main and branch passenger and freight lines former steam locomotive and manual signal tower stations towns that functioned as crew change points track pans coaling stations and a variety of indexes of railroad features. Carpenter is a longtime observer and collector of railroad history. The Railway Preservation Revolution Jonathan Brown, 2017-06-30. A ride on a steam train is a popular family outing. More than 100 heritage railways cater for that demand capturing the spirit of nostalgia while preserving the engines and equipment of past days of rail travel. Their interests even extend to the modern era of 1960

s 70 s diesels Those heritage railways themselves have a long pedigree back to 1951 when a group of enthusiasts saved the Talylyn Railway in mid Wales from closure They ran this railway as volunteers out of their love of the little trains and a desire to keep it going Their example was followed by many more preservation societies who preserved and restored branch lines country lines and industrial lines for our enjoyment now Six decades have passed and we are now beginning to realize what an impressive history the heritage railway movement has This book traces that history from the humble beginnings the hopes and ambitions of the pioneers on the different railway projects There were times of failure and frustration as some fell by the wayside but others have made it through times of adversity to become the major heritage businesses of today
