Explorer Travellers and Adventure Tourism Jennifer Laing,Warwick Frost,2014-08-04 This book examines the nexus between exploring and tourism and argues that exploration travel based heavily on explorer narratives and the promises of personal challenges and change is a major trend in future tourism In particular it analyses how romanticised myths of explorers form a foundation for how modern day tourists view travel and themselves Its scope ranges from the Golden Age of imperial explorers in the 19th and early 20th centuries through the growth of adventure and extreme tourism to possible

Limiting Outer Space Alexander C.T. Geppert, 2018-04-18 Limiting Outer Space propels the historicization of outer space by focusing on the Post Apollo period After the moon landings disillusionment set in Outer space no longer considered the inevitable destination of human expansion lost much of its popular appeal cultural significance and political urgency With the rapid waning of the worldwide Apollo frenzy the optimism of the Space Age gave way to an era of space fatigue and planetized limits Bringing together the history of European astroculture and American Soviet spaceflight with scholarship on the 1970s this cutting edge volume examines the reconfiguration of space imaginaries from a multiplicity of disciplinary perspectives Rather than invoking oft repeated narratives of Cold War rivalry and an escalating Space Race Limiting Outer Space breaks new ground by exploring a hitherto underrated and understudied decade the Post Apollo period
