Voices from the Carpathia: Rescuing RMS Titanic George Behe, 2015-05-04 When Titanic began sending out distress calls one of the first to reply was the Cunard liner Carpathia As it turned out Carpathia was the only vessel to reach the scene in time to save the

lives of any of Titanic's passengers and after she arrived in New York reporters crowded the pier and vied with each other to obtain interviews with the survivors of the disaster. In their zeal to interview survivors though the reporters brushed past other people who could have provided their own eyewitness accounts namely Carpathia's own passengers largely left to their own devices as to how and when they discussed their participation in events. A few wrote letters to relatives others wrote accounts intended for publication. The author's collection of these rare written accounts and interviews sheds new light on the tragic way the lives of so many were impacted by the loss of the largest passenger liner in the world. **On Board RMS**

Titanic George Behe, 2012-02-29 It would make the stones cry to hear those on board shrieking Daniel Buckley third class passenger. For the first time in this moving new book Titanic's passengers and crewmen are permitted to tell the story of that lamentable disaster entirely in their own words. Included are letters postcards diary entries and memoirs that were written before during and immediately after the maiden voyage itself. Many of the pre-sailing documents were composed by people who later lost their lives in the sinking and represent the last communications that these people ever had with their friends and loved ones at home. The subsequent letters and postcards give an unparalleled description of the events that occurred during the five days that Titanic was at sea and the correspondence by survivors after the tragedy describes the horror of the disaster itself and the heartbreak they experienced at the loss of those they loved. This poignant compilation by Titanic expert George Behe also contains brief biographies of the passengers and crewmen victims as well as survivors who wrote the documents in question. **Premonitions of the Titanic Disaster** Terry Keefe, 2021-03-28

Passengers cancelling their tickets for Titanic's maiden voyage out of apprehension a famous social reformer who died on Titanic warned in 1911 that he would be in danger from water. In April 1912 inhabitants of the remote islands of Fiji aware of the sinking before reports of the collision reached the Pacific a dying girl who on 14 April 1912 sees a big ship sinking in the water and mysteriously knows the name of the violinist in Titanic's orchestra. These are just a few of the numerous claims to psychic foreknowledge of the ship's sinking. Within days of the widely publicised disaster of 1912 stories began circulating of extraordinary omens and individuals who supposedly had supernatural premonitions of the disaster. Furthermore four fictional works one dating as far back as twenty six years came to be seen as anticipating the disaster. Between 1960 and 2006 five major commentators published extended analyses of the alleged premonitions none of which is now easily accessible to an English readership. This book examines them all in detail. The whole treatment of the matter opens up fascinating questions concerning the paranormal but also raises and leaves unresolved crucial issues specific to premonitions and how they can be legitimately examined. Readers are left to make their own judgement on Titanic premonitions. *The Titanic* Eugene L. Rasor, 2001-09-30 Promoted as virtually unsinkable the ultimate luxury liner the largest ship in the world the RMS Titanic sank on its maiden voyage in April 1912 taking some 1 500 people to their death. Aboard the ship were the wealthy and famous as well as hundreds of immigrants seeking a new life in America. The most dramatic marine disaster of modern times the Titanic

tragedy captured the interest and imagination of the entire world The intensity of interest in the catastrophe has increased particularly after discovery of the wreck off the coast of Newfoundland in the mid 1980s The resulting literature is vast including both scholarly and popular sources Covering more than the published literature the book also surveys memorabilia artifacts cultural icons music film and exhibitions Divided into three sections the work opens with a historiographical survey of the literature then includes descriptive lists of more peripheral material and concludes with a bibliography of 674 entries All items covered in the historiographical survey are included in the bibliography This useful guide will appeal to researchers both laymen and scholars interested in the Titanic

Chasing Icebergs

Matthew H. Birkhold,2023-02-07 A deeply intelligent and engrossing narrative that will transform our relationship with water and how we view climate change The global water crisis is upon us 1 in 3 people do not have access to safe drinking water nearly 1 million people die each year as a result Even in places with adequate freshwater pollution and poor infrastructure have left residents without basic water security Luckily there is a solution to this crisis where we least expect it Icebergs frozen mountains of freshwater are more than a symbol of climate change In his spellbinding Chasing Icebergs Matthew Birkhold argues the glistening leviathans of the ocean may very well hold the key to saving the planet Harvesting icebergs for drinking water is not a new idea But for the first time in human history doing so on a massive global scale is both increasingly feasible and necessary for our survival Chasing Icebergs delivers a kaleidoscopic history of humans relationship with icebergs and offers an urgent assessment of the technological cultural and legal obstacles we must overcome to harness this freshwater resource Birkhold takes readers around the globe introducing them to a colorful cast of characters with wildly different ideas about how and if humans should use icebergs Sturdy bureaucrats committed to avoiding another Titanic square off against iceberg cowboys who wrangle the

frozen beasts for profit Entrepreneurs selling luxury iceberg water for an eye popping price clash with fearless humanitarians trying to tow icebergs across the globe to eradicate water shortages Along the way we meet some of the world's most renowned scientists to determine how industrial scale iceberg harvesting could affect the oceans and the poles And we see firsthand the looming conflict between Indigenous peoples like the Greenlandic Inuit with claims to icebergs and the private corporations that stand to reap massive profits As Birkhold shepherds readers from Connecticut to South Africa from Newfoundland to Norway to Greenland and beyond he unfurls a visionary argument for cooperation over conflict It's not too late for icebergs to save humanity But we must act fast to form a coalition of scientists visionaries engineers lawyers and diplomats to ensure that the Cold Rush doesn't become a free for all

After a miraculous escape from the German military juggernaut in the small Belgian town of Mons in 1914 the first major battle that the British Expeditionary Force would face in the First World War the British really believed that they were on the side of the angels Indeed after 1916 the number of spiritualist societies in the United Kingdom almost doubled from 158 to 309 As Arthur Conan Doyle explained The deaths occurring in almost every family in the land brought a sudden and concentrated interest in the life after death People not only asked the question If a man die shall he live again but they eagerly sought to know if communication was possible with the dear ones they had lost From the Angel of Mons to the popular boom in spiritualism as the horrors of industrialised warfare reaped their terrible harvest the paranormal and its use in propaganda was one of the key aspects of the First World War *Angels in the Trenches* takes us from defining moments such as the Angel of Mons on the Front Line to spirit communication on the Home Front often involving the great and the
