Goodall,Terry Gourvish,Steven Tolliday,2013-12-16 The field of business history has changed and grown dramatically over
the last few years There is less interest in the traditional company centred approach and more concern about the wider
business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have
gained in importance In addition there has been a move towards improving links with mainstream economic financial and
social history through techniques and outlook The International Bibliography of Business History brings all of the strands
together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume
which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of

subject specialists from around the world under the editorship of three prestigious business historians Cars & Parts

 Shaw,2012 The complexity of the interplay and relationships over various borders in medieval Europe is here fully teased out
 The processes by which ideas objects texts and political thought and experience moved across boundaries in the Middle Ages
 form the focus of this book which also seeks to reassess the nature of the boundaries themselves it thus appropriately reflects
 a major theme of Dr Malcolm Vale s work which the essays collected here honour They suggest ways of breaking down
 established historiographical paradigms of Europe as a set of distinct polities achieving a more nuanced picture in which
 people and objects were constantly moving and challenging previous conceptions of units and borders The first section
 examines the construction of boundaries and units in the later Middle Ages via topics ranging from linguistic units to social
 stratifications and geographically from the Netherlands and Scotland to Gascony and the Iberian peninsula it reveals how
 much the relationship between exchange and boundaries was reciprocal The second section considers the mechanisms by
 which it took place from West Africa to Italy and Flanders and discusses the actual exchange of people texts and unusual
 artefacts Overall the essays bear witness to the constant interplay and interconnections throughout medieval Europe and
 beyond Contributors Paul Booth Maria Jo o Violante Branco Rita Costa Gomes Mario Damen Jan Dumolyn Jean Dunbabin Jean
