Irwin Allen Television Productions, 1964-1970 Jon Abbott, 2015-06-14 Before establishing himself as the master of disaster with the 1970s films *The Poseidon Adventure* and *The Towering Inferno* Irwin Allen created four of television's most exciting and enduring science fiction series *Voyage to the Bottom of the Sea* *Lost in Space* *The Time Tunnel* and *Land of the Giants* These 1960s series were full of Allen's favorite tricks techniques and characteristic touches and influenced other productions from the original *Star Trek* forward Every science fiction show owes something to Allen yet none has equaled his series pace excitement or originality This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good they were great and when they were bad they were still terrific fun

My Fair Ladies Julie Wosk, 2015-07-28 The fantasy of a male creator constructing his perfect woman dates back to the Greek myth of Pygmalion and Galatea Yet as technology has advanced over the past century the figure of the lifelike manmade woman has become nearly ubiquitous popping up in everything from *Bride of Frankenstein* to *Weird Science* to *The Stepford Wives* Now Julie Wosk takes us on a fascinating tour through this bevy of artificial women revealing the array of cultural fantasies and fears they embody *My Fair Ladies* considers how female automatons have been represented as objects of desire in fiction and how living dolls have been manufactured as real world fetish objects But it also examines the many works in which the perfect woman turns out to be artificial a robot or doll and thus becomes a source of uncanny horror Finally Wosk introduces us to a variety of female artists writers and filmmakers from Cindy Sherman to Shelley Jackson to Zoe Kazan who have cleverly crafted their own images of simulated women Anything but dry *My Fair Ladies* draws upon Wosk's own experiences as a young female *Playboy* copywriter and as a child of the feminine mystique era to show how images of the artificial woman have loomed large over real women's lives Lavishly illustrated with film stills artwork and vintage advertisements this book offers a fresh look at familiar myths about gender technology and artistic creation
