The Longest Journey E. M. Forster, 2019-11-20 E M Forster's *The Longest Journey* is a profound exploration of the complexities of human relationships and the individual's quest for identity within the constraints of society Set in early 20th century England the narrative weaves together themes of passion duty and the dichotomy between personal fulfillment and societal expectations Forster's rich prose and keen psychological insights capture the emotional turmoil of his characters allowing readers to navigate the intricate landscapes of their inner lives The novel illustrates a convergence of modernist literary style while challenging Victorian norms making it a significant work in Forster's oeuvre E M Forster 1879 1970 was a British novelist and essayist whose own experiences as a gay man in a repressive society influenced his literary perspective His time spent in Italy his education at King's College Cambridge and the friendships he cultivated with other writers deeply affected his worldview Forster's staunch advocacy for human connection and deep understanding of character motives resonate throughout *The Longest Journey* providing a critique of societal norms and expectations This novel is highly recommended for readers intrigued by intricate character studies and the transformative journey of self discovery Forster's ability to portray the nuances of emotional struggle against the backdrop of societal limitations invites readers to reflect on their own journeys *The Longest Journey* remains a timeless exploration of human desire and societal constraints affirming Forster's place as a masterful storyteller

The Lost Girls Andrew Radford, 2007 *The Lost Girls* analyses a number of British writers between 1850 and 1930 for whom the myth of Demeter's loss and eventual recovery of her cherished daughter Kore Persephone swept off in violent and catastrophic captivity by Dis God of the Dead had both huge personal and aesthetic significance This book in addition to scrutinising canonical and less well known texts by male authors such as Thomas Hardy E M Forster and D H Lawrence also focuses on unjustly neglected women writers Mary Webb and Mary Butts who utilised occult tropes to relocate themselves culturally and especially in Butts's case to recover and restore a forgotten legacy the myth of matriarchal origins These novelists are placed in relation not only to one another but also to Victorian archaeologists and especially to Jane Ellen Harrison 1850-1928 one of the first women to distinguish herself in the history of British Classical scholarship and whose anthropological approach to the study of early Greek art and religion both influenced and became transformed by the literature Rather than offering a teleological argument that moves lock step through the decades *The Lost Girls* proposes chapters that detail specific engagements with Demeter Persephone through which to register distinct literary cultural shifts in uses of the myth and new insights into the work of particular writers
