Lotus International 37 Quarterly Architectural Review:

Lotus International, 2002 **Proceedings of the ACSA Annual Meeting** Association of Collegiate Schools of Architecture, 2001 Avery Index to Architectural Periodicals, 2d Ed., Rev. and Enl Avery Library, 1995 *The Urbanism of Frank Lloyd Wright* Neil Levine, 2016 This is the first book devoted to Frank Lloyd Wright's designs for remaking the modern city. Stunningly comprehensive, *The Urbanism of Frank Lloyd Wright* presents a radically new interpretation of the architect's work and offers new and important perspectives on the history of modernism. Neil Levine places Wright's projects produced over more than fifty years within their historical, cultural, and physical contexts while relating them to the theory and practice of urbanism as it evolved over the twentieth century. Levine overturns the conventional view of Wright as an architect who deplored the city and whose urban vision was limited to a utopian plan for a network of agrarian communities he called Broadacre City. Rather, Levine reveals Wright's larger, more varied, interesting, and complex urbanism demonstrated across the span of his lengthy career. Beginning with Wright's plans from the late 1890s through the early 1910s for reforming residential urban neighborhoods, mainly in Chicago, and continuing through projects from the 1920s through the 1950s for commercial, mixed-use, civic, and cultural centers for Chicago, Madison, Washington, Pittsburgh, and Baghdad, Levine demonstrates Wright's place among the leading contributors to the creation of the modern city. Wright's often spectacular designs are shown to be those of an innovative precursor and creative participant in the world of ideas that shaped the modern metropolis. Lavishly illustrated with drawings, plans, maps, and photographs, this book features the first extensive new photography of materials from the Frank Lloyd Wright Foundation Archives. *The Urbanism of Frank Lloyd Wright* will serve as one of the most important books on the architect for years to come. **Aldo Rossi** Aldo Rossi, 1993 Admired as much for his artistic ability as for his architectural skill, Rossi has exhibited at galleries around the world. **Avery Index to Architectural Periodicals** Avery Library, 1997 **Ulrich's Periodicals Directory**, 1989 **Zapruder** Øyvind Vågnes, 2012-08-24 Winner Peter C. Rollins Book Award 2012 As the fiftieth anniversary of the Kennedy assassination approaches, the traumatic aspects of the tragedy continue to haunt our perceptions of the 1960s. One reason for this lies in the home movie of the incident, filmed by Abraham Zapruder, a bystander who became one of the twentieth century's most important accidental documentarians. The first book devoted exclusively to the topic, *Zapruder* traces the journey of the film and its effect on the world's collective imagination. Providing insightful perspective as an observer of American culture, Norwegian media studies scholar Øyvind Vågnes begins by analyzing three narratives that are projections of Zapruder's images: performance group Ant Farm's video *The Eternal Frame*, Don DeLillo's novel *Underworld*, and an episode from *Seinfeld*. Subsequent topics he investigates include Dealey Plaza's Sixth Floor Museum, Zoran Naskovski's installation *Death in Dallas*, assassin video games, and other artifacts of the ways in which the footage has made a lasting impact on popular culture and the historical imagination. Vågnes also explores the role of other accidental documentarians such as those who captured

scenes of 9 11 Zapruder's footage has never yielded a conclusive account of what happened in Dealey Plaza Zapruder thoroughly examines both this historical enigma and its indelible afterimages in our collective imagination **The Publishers' Trade List Annual**, 1988 *Modern Architecture* Neil Levine, 2009 In this work esteemed architectural historian Neil Levine investigates the complex history of representation from the 18th to the 20th century Using the lens of a continuous theoretical argument Levine provides a detailed survey and critical analysis of major works by a host of modern architects Intertwining: Steven Holl, 1996-04 To his earlier articulated concept of anchoring which connects a construction with the history of the ground locale and region Holl adds the concept of intertwining which is illuminated by sensory perceptual conceptual and emotional experiences Illustrates with drawings plans and photographs projects in Japan Finland Germany Switzerland Holland Korea and Norway No index Annotation copyright by Book News Inc Portland OR AAQ. Architectural Association Quarterly Architectural Association (Great Britain), 1979 **Design Quarterly**, 1978 HOW TO ACQUIRE BOOKS LISTED IN CURRENT CONTENTS, 1996 The International Building Exhibition (IBA) in West Berlin, and Contemporary Housing Concepts Carole Cable, 1987 *Ulrich's International Periodicals Directory* Carolyn Farquhar Ulrich, 2001 **The New Tenement** Florian Urban, 2017-10-12 This book examines new tenements dense medium rise multi storey residences that have been the backbone of European inner city regeneration since the 1970s and came with a new positive view on urban living Focusing principally on Berlin Copenhagen Glasgow Rotterdam and Vienna it relates architectural design to an evolving intellectual framework that mixed anti modernist criticism with nostalgic images and strategic goals and absorbed ideas about the city as a generator of creativity locale of democratic debate and object of personal identification This book analyses new tenements in the context of the post functionalist city and its mixed use neighbourhoods redeveloped industrial sites and regenerated waterfronts It demonstrates that these buildings are both generators and outcome of an urban environment characterised by information exchange rather than industrial production individual expression rather than mass culture visible history rather than comprehensive renewal and conspicuous difference rather than egalitarianism It also shows that new tenements evolved under a welfare state that all over Europe has come under pressure but still to a certain degree balances and controls heterogeneity and economic disparities **Architecture Series: Bibliography**, 1987 *Current Contents* Institute for Scientific Information (Philadelphia), 2002 *The Culture of Cultivation* Raffaella Fabiani Giannetto, 2020-07-29 By seeking to rediscover the profession's agricultural roots this volume proposes a 21st century shift in thinking about landscape architecture that is no longer driven by binary oppositions such as urban and rural past and present aesthetics and ecology beautiful and productive but rather prioritizes a holistic and cross disciplinary framing The illustrated collection of essays written by academics researchers and experts in the field seeks to balance and redirect a current approach to landscape architecture that prioritizes a narrow definition of the regional in an effort to tackle questions of continuous urban growth and its impact on the environment It argues that an emphasis on

conurbation which occurs at the expense of the rural often ignores the reality that certain cultivation and management practices taking place on land set aside for production can be as harmful to the environment as is unchecked urbanization contributing to loss of biodiversity soil erosion and climate change By contrast the book argues that by expanding the expertise of design professionals to include the productive food systems soil conservation and the preservation of cultural landscapes landscape architects would be better equipped to participate in the stewardship of our planet Written primarily for landscape practitioners and academics cultural and environmental historians and conservationists *The Culture of Cultivation* will appeal to anyone interested in a thorough rethinking of the role and agency of landscape architecture
