**The Wall Beside the Work** Derek Pigrum, 2021-06-23 This book is about the way artists generate an endless chain of substitute objects for something they can never quite find It explores the work involved in art with a focus upon finding gathering and assembling charged and auratic objects on the wall beside the work The author employs the term *Das Gegenwerk* or the work towards the work This concept avoids definitive closure and expands the notion of drafting and related practices to include qualitative research methods The multi mode transitional practices of *Das Gegenwerk* are devoid of any demand for a preconceived goal but instead hinge upon the provisional and indeterminate As such it is a far cry from the binary logic of the computer and the design cycle but is of interest to an audience engaged with both *Das Gegenwerk* hinges on our capacity to respond to the outside rather than the inwardness often attributed to creative agency A fundamental belief of the book is that by investigating and adapting the practices of expert practitioners we can gain an understanding of high level creativity It is neither a recipe nor a linear or cyclic approach Rather artistic creation is an interweave of transitional multi mode practices where the overriding emphasis is on the handling or habituation of transitional materials in physical place The author addresses the urgent need to provide a balance between the promise of new technology and our capacity to both respond to and work with what the world bestows

**After the Revolution** Eleanor Heartney, Helaine Posner, Nancy Princenthal, Sue Scott, 2013-11-04 Why Have There Been No Great Women Artists asked the prominent art historian Linda Nochlin in a provocative 1971 essay Today her insightful critique serves as a benchmark against which the progress of women artists may be measured In this book four prominent critics and curators describe the impact of women artists on contemporary art since the advent of the feminist movement

**Forms of Enchantment: Writings on Art and Artists** Marina Warner, 2018-10-23 An anthology of enlightening writing by an award winning critic that engages with art in its social political and aesthetic contexts Art writing at its most useful should share the dynamism fluidity and passions of the objects of its enquiry argues author Marina Warner in this new anthology Here some of Warner's most compelling writing captures the visual experience of the work of a diverse group of artists with a notable focus on the inner lives of women through an exploration of the range of stories and symbols to which they allude in their work Warner vividly describes this imagery covering the connection with animals in the work of Louise Bourgeois the Catholicism of Damien Hirst performance as a medium of memory in the installations of Joan Jonas and more Rather than

drawing on connoisseurship Warner's approach grows principally out of anthropology and mythology Accompanied by illustrations of the works being described Marina Warner's writing unites the imagination of artist writer and reader creating a reading experience that parallels the intrinsic pleasure of looking at art This book will appeal to any student of art history those interested in philosophy feminism and more generally in the humanities **Atlas of Emotion** Giuliana

Bruno, 2020-05-05 Atlas of Emotion is a highly original endeavour to map a cultural history of spatio visual arts In an evocative montage of words and pictures emphasises that sight and site but also motion and emotion are irrevocably connected In so doing Giuliana Bruno touches on the art of Gerhard Richter and Annette Messager the film making of Peter Greenaway and Michelangelo Antonioni the origins of the movie palace and its precursors and her own journeys to her native Naples Visually luscious and daring in conception Bruno opens new vistas and understandings at every turn **A Curious**

**Intimacy** Lois Oppenheim, 2013-01-11 What can neuroscience contribute to the psychodynamic understanding of creativity and the imagination A Curious Intimacy is an innovative study into the interrelation between art and neuro psychoanalysis which significantly narrows the divide between the humanities and the sciences Situating our grasp of the creative mind within the historical context of theories of sublimation Lois Oppenheim proposes a change in paradigm for the study of the creative process questioning the idea that creativity serves above all the reparation of early object relationships and the resolution of conflict The book is divided into two parts Part One Art and the Brain introduces the field of neuro psychoanalysis and examines the contribution it can make to the discussion of gender and art Part Two A New Direction for Interdisciplinary Psychoanalysis draws on the verbal and visual artistry of Samuel Beckett Paul Klee and Martha Graham to put to the test the proposed new direction for applied psychoanalysis Lois Oppenheim concludes by addressing the future of psychoanalysis as it becomes increasingly informed by neuroscience and raising questions about what the neurobiology of emotion and feeling has to tell us about the creative experience of an individual and what might constitute a neuro psychoanalytic aesthetics A Curious Intimacy will have great appeal for all those interested in the study of imagination and creativity It will also be of particular interest to students across the humanities and sciences and to psychotherapists and psychoanalysts wanting to explore the contribution that neuro psychoanalysis can make to our understanding of the creative process
