Targeting the concepts used by modern scholars the papers address both general methodological questions of how concepts should be developed and used and more specific ones about the history and presuppositions behind particular Egyptological concepts. In so doing the volume brings to the fore occasionally problematic intellectual baggage that have hindered understanding as well highlighting new promising avenues of research in ancient Egyptian funerary culture in the Middle Kingdom and more broadly. New and insightful suggestions are made many of which challenge the basic frames of reference of Western Egyptological study from funerary practice to issues of identity. The methodological models should be of considerable interest to those studying aspects of the HB and ancient Levant related to funerary culture where studies have often tended towards the etic. David Beadle Journal for the Study of the Old Testament 44:5 2020. 7. *Ägyptologische Tempeltagung* René Preys, 2009 Building a temple implies the mastering of different technicalities such as the commissioning and payment of the building process procuring and transporting building material the organization of work and the practical execution of building and decoration projects. But building a temple is also translating a religious idea into stone. From the design to the consecration of the temple every stage in the process answers to a set of rules that enables the building to function as a temple. The aim of the 7th Tempeltagung was to examine the relation between the technical and the theological demands of temple building. How was architecture influencing the ritual how did ritual texts reflect the act of construction? What was the relation between the mythical temple and the actual temple? Who made the decisions and who executed them?

What technical and theological considerations lay at the base of the choice of material and of form In other words how did the technical aspects of building influence the theological ideas how was building a temple structuring religion **Ancient Egyptian Kingship** David Bourke O'Connor, David P. Ancient Egyptian Temple Ritual Katherine Eaton, 2014-03-14 Large state temples in ancient Egypt were vast agricultural estates with interests in mining trading and other economic activities The temple itself served as the mansion or palace of the deity to whom the estate belonged and much of the ritual in temples was devoted to offering a representative sample of goods to the gods After ritual performances produce was paid as wages to priests and temple staff and presented as offerings to private mortuary establishments This redistribution became a daily ritual in which many basic necessities of life for elite Egyptians were produced This book evaluates the influence of common temple rituals not only on the day to day lives of ancient Egyptians but also on their special events economics and politics Author Katherine Eaton argues that a study of these daily rites ought to be the first step in analyzing the structure of more complex societal processes

Egyptology at the Dawn of the Twenty-first Century Zahi A. Hawass, Lyla Pinch Brock, 2003. This comprehensive three-volume set marks the publication of the proceedings of the Eighth International Congress of Egyptologists held in Cairo in 2000, the largest Congress since the inaugural meeting in 1979. Organized thematically to reflect the breadth and depth of the material presented at this event, these papers provide a survey of current Egyptological research at the dawn of the twenty-first century. The proceedings include the eight Millennium Debates led by esteemed Egyptologists addressing key issues in the field as well as nearly every paper presented at the Congress. The 275 papers cover the whole spectrum of Egyptological research. Grouped under the themes of archaeology, history, religion, language, conservation and museology and written in English, French and German, these contributions together form the most comprehensive picture of Egyptology today.

Temples of Ancient Egypt Dieter Arnold, 1997. Five distinguished scholars here summarize the state of current knowledge about ancient Egyptian temples and the rituals associated with their use. The first volume in English to survey the major types of Egyptian temples from the Old Kingdom to the Roman period, it offers a unique perspective on ritual and its cultural significance. The authors perceive temples as loci for the creative interplay of sacred space and sacred time. They regard as unacceptable the traditional division of the temples into the categories of mortuary and divine, believing that their functions and symbolic representations were at once too varied and too intertwined. Both informative to scholars and accessible to students, the book combines descriptions of specific temples with new insights into their development and purposes.

Nile into Tiber: Egypt in the Roman World Laurent Bricault, Miguel John Versluys, Paul G.P. Meyboom, 2006-12-01. Interest in all kinds of interactions between Egypt and Rome has grown considerably over the last decade. This debate has not only altered our views on the impact of Rome on Alexandria and Egypt but also strongly put to the fore the reverse direction of this cultural interaction: Egyptian influences on the Roman world. It is this topic, Egypt in the Roman World, that was central to the IIIrd International Conference of Isis Studies held in Leiden in May 2005. This book, a selection of the papers delivered at the conference, gives a clear overview of the debate as it has

developed in recent years In two parts I Interpretations of the meaning of Aegyptiaca Romana and II Understanding the cults of Isis in their local context preceded by a general introduction it offers a broad perspective on the various aspects of cultural interaction between Egypt and Rome also by bringing together different research traditions in this field *Daemons and Spirits in Ancient Egypt* Carolyn Graves-Brown,2018-09-01 It deals with artefacts from the Egypt Centre This is a little known but important collection It deals largely with themes rarely or not at all discussed in separate volumes The theme of daemons is particularly current in academic Egyptology It should appeal to both academic and non academic readers **Nile Into Tiber** Laurent Bricault,Miguel John Versluys,Paul G. Gregory,2022-02-04 Tutankhamun Knew the Names of the Two Great Gods offers a new interpretation of the terms Dt and nHH as fundamental concepts of Pharaonic ideology terms that until now have often been treated as synonyms reflecting notions related to the vastness of time [Theban Desert Road Survey II](#) John Coleman Darnell,2013-12-31 The second monograph devoted to the work of the Theban Desert Road Survey presents the major rock inscriptions of the northwestern Theban Desert and the western hinterlands of Qamula The material includes six larger sites and several smaller collections and individual inscriptions and images sites discovered by the Theban Desert Road Survey over the course of approximately twelve field seasons The major groupings of inscriptions from south to north are the rock shrine of Pahu and the inscriptions of Gebel Akhenaton sites in the vicinity of the Wadi Himdaniya a small but interesting collection of inscriptions near the Wadi Arqub Baghla with two smaller outlying sites inscriptions of the Wadi Magar to the north including the site of the great Predynastic tableau with its plethora of crocodiles the associated vignette of Elephant on the Gebel along with the nearby Gebel Sutekh site and smaller concentrations beyond and finally the inscriptions of the area of the Matna el Barqa Highlights of the epigraphic material include new prayers to Amun and Hathor one a genuine New Kingdom de profundis recording an appeal to Amun during a storm on the Nile several important Predynastic and Protodynastic tableaux and the only rock art depictions of Akhenaton in a true Amarna style **The Last Pharaohs** J. G. Manning,2009-11-02 Manning s book is one of the most thought provoking studies on the Hellenistic world to have appeared for quite some time essential reading John Ray Times Literary Supplement The history of Ptolemaic Egypt has usually been doubly isolated separated both from the history of other Hellenistic states and from the history of ancient Egypt The Last Pharaohs the first detailed history of Ptolemaic Egypt as a state departs radically from previous studies by putting

the Ptolemaic state firmly in the context of both Hellenistic and Egyptian history More broadly still J G Manning examines the Ptolemaic dynasty in the context of the study of authoritarian and premodern states shifting the focus of study away from modern European nation states and toward ancient Asian ones By analyzing Ptolemaic reforms of Egyptian economic and legal structures *The Last Pharaohs* gauges the impact of Ptolemaic rule on Egypt and the relationships that the Ptolemaic kings formed with Egyptian society Manning argues that the Ptolemies sought to rule through rather than over Egyptian society He tells how the Ptolemies adopting a pharaonic model of governance shaped Egyptian society and in turn were shaped by it Neither fully Greek nor wholly Egyptian the Ptolemaic state within its core Egyptian territory was a hybrid that departed from but did not break with Egyptian history Integrating the latest research on archaeology papyrology theories of the state and legal history as well as Hellenistic and Egyptian history *The Last Pharaohs* draws a dramatically new picture of Egypt's last ancient state Manning has produced a deep and meaningful study of the social and political relationships inherent in the Ptolemaic economy Timothy Howe *Bryn Mawr Classical Review*
