The Drama of Love and Death Edward Carpenter, 1912 Historical and philosophical discussion on love and death. The author tries to grapple with their significance and to come to some resolution about death.

The Drama of love and death 1912 Edward Carpenter, 1912 *Love or greatness (Routledge Revivals)* Roslyn Bologh, 2009-12-15 This work first published in 1990 reissues the first thorough examination of the essentially masculine nature of Max Weber's social and political thinking. Through a detailed examination of his central texts, the author demonstrates Weber's masculine reading of social life and shows how his work advocates a masculine form of life that poses a challenge to contemporary women and to feminism. In particular, she addresses the patriarchal implications of Weber's belief in the need to relegate the ethic of brotherly love to a private sphere in order to make possible rational action and the achievement of greatness in the public sphere.

Love's Philosophy Richard John White, 2001 Love comes in many forms and touches all our lives, and despite its changing history, it remains constant in human experience. *Love's Philosophy* explores the basic expressions of love. In this book, White looks at friendship, romance, parenthood, and humanitarian love from a classical and contemporary perspective. He argues that the philosophical oblivion of love has been a mistake. By examining both the historical and contemporary formations of love, he proposes alternative models to guide both our thinking and our experience of loving.

For Love of Wisdom Josef Pieper,2010-06-17 In these elegant and engaging essays the internationally acclaimed Thomist Josef Pieper defines and defends philosophy as the search for and love of wisdom True philosophy is not the work of joyless academics pondering over esoteric writings that have no relation to real life Rather the philosophical act in which all reasonable men can participate begins in wonder at what is and gratitude for what is given and ends in love In his encyclical letter *Fides et Ratio* On the Relationship between Faith and Reason Pope John Paul II called for a revitalization of true philosophy for man can find fulfillment only in choosing to enter the truth to make a home under the shade of Wisdom and dwell there Pieper s essays make the same ardent and convincing plea Josef Pieper is renowned for having popularized the philosophy of St Thomas Aquinas a brilliant student of St Thomas who in his own voluminous works has made the deep thought of the Angelic Doctor more accessible and understandable to the modern reader

The Metaphysics of Love Stella Sandford,2001-11-01 Emmanuel Levinas is best known for having reintroduced the question of ethics into the Continental philosophical tradition In *The Metaphysics of Love* however Stella Sandford argues that an over emphasis on ethics in the reception of Levinas s thought has covered over both the basis and the details of his philosophical project a metaphysics which affirms the necessity

to think of an unqualified transcendence as a first principle Sanford's book is at the same time a powerful feminist critique of both Levinas's gendered philosophical categories and the attempt to reclaim aspects of this philosophy for feminist theory

Love, Imperfectly Known Brother Emmanuel of Taizé, 2011-05-19 This unique work analyzes the crisis in modern society building on the ideas of the Frankfurt School thinkers Emphasizing social evolution and learning processes it argues that crisis is mediated by social class conflicts and collective learning the results of which are embodied in constitutional and public law First the work outlines a new categorical framework of critical theory in which it is conceived as a theory of crisis It shows that the Marxist focus on economy and on class struggle is too narrow to deal with the range of social conflicts within modern society and posits that a crisis of legitimization is at the core of all crises It then discusses the dialectic of revolutionary and evolutionary developmental processes of modern society and its legal system This volume in the *Critical Theory and Contemporary Society* by a leading scholar in the field provides a new approach to critical theory that will appeal to anyone studying political sociology political theory and law

Systematic Theology Paul Tillich, 2012-11-30 A great voyage of discovery into a rich and deep and inclusive vision and understanding of human life in the presence of the mystery of God H Richard Niebuhr author of *Christ and Culture* This is the first part of Paul Tillich's three volume *Systematic Theology* one of the most profound statements of the Christian message ever composed and the summation and definitive presentation of the theology of the most influential and creative American theologian of the twentieth century In this path breaking volume Tillich presents the basic method and statement of his system his famous correlation of man's deepest questions with theological answers Here the focus is on the concepts of being and reason Tillich shows how the quest for revelation is integral to reason itself In the same way a description of the inner tensions of being leads to the recognition that the quest for God is implied in finite being Here also Tillich defines his thought in relation to philosophy and the Bible and sets forth his famous doctrine of God as the Ground of Being Thus God is understood not as a being existing beside other beings but as being itself or the power of being in everything God cannot be made into an object religious knowledge is therefore necessarily symbolic Beyond doubt the richest most suggestive and most challenging philosophical theology our day has produced John Herman Randall Jr author of *The Making of the Modern Mind*

The Meaning of the World Is Love Richard Clements, 2022-05-01 Hans Urs von Balthasar 1905 1988 a prolific Catholic theologian from Switzerland has been called a new Father of the Church His work shaped not only by traditional theology and philosophy but by literature art and music made an impact on both Saint John Paul II and Pope Emeritus Benedict XVI Aidan Nichols O P describes Balthasar s fifteen volume masterwork the Trilogy as perhaps the high point of twentieth century Catholic theology Yet for all Balthasar s brilliance the core of his theology is extraordinarily simple love for God is love Love lies at the center of life indeed at the center of being itself For Balthasar the answers to all of man s big existential questions revolve around love The Meaning of the World Is Love compiled by psychologist Richard Clements brings Balthasar s meditations to a wider audience using brief excerpts from the theologian to walk readers through the landscape of divine love which is our home The path of love is the path of self gift as well as of truth goodness and beauty and it is the only way to genuine fulfillment Balthasar as Clements shows can point us to the very heart of reality God who gives himself to us without reserve *Built upon Love* Alberto Perez-Gomez, 2008-02-15 A vision of architecture that transcends concerns of form and function and finds the connections between the architect s wish to design a beautiful world and architecture s imperative to provide a better place for society The forced polarity between form and function in considerations of architecture opposing art to social interests ethics to poetic expression obscures the deep connections between ethical and poetical values in architectural tradition Architecture has been and must continue to be writes Alberto P rez G mez built upon love Modernity has rightly rejected past architectural excesses but P rez G mez argues the materialistic

and technological alternatives it proposes do not answer satisfactorily the complex desire that defines humanity True architecture is concerned with far more than fashionable form affordable homes and sustainable development it responds to a desire for an eloquent place to dwell one that lovingly provides a sense of order resonant with our dreams In Built upon Love P rez G mez uncovers the relationship between love and architecture in order to find the points of contact between poetics and ethics between the architect s wish to design a beautiful world and architecture s imperative to provide a better place for society Eros as first imagined by the early lyric poets of classical Greece is the invisible force at the root of our capacity to create and comprehend the poetic image P rez G mez examines the nature of architectural form in the light of eros seduction and the tradition of the poetic image in Western architecture He charts the ethical dimension of architecture tracing the connections between philia the love of friends that entails mutual responsibility among equals and architectural program He explores the position of architecture at the limits of language and discusses the analogical language of philia in modernist architectural theory Finally he uncovers connections between ethics and poetics describing a contemporary practice of architecture under the sign of love incorporating both eros and philia **Absurd meaning, Love pursuit**
