cultivation of coping skills It also integrates fiscal issues of treatment into the development of the alliance with the parents in resolving the presenting problem Dr Ziegler and Dr Bush present the reader with practical workable strategies for laying down strong diagnostic foundations for successful treatment making *Paving the Way for Children's Success* a valuable resource for any clinician working with children and adolescents When the Vow Breaks Joseph Warren

the old adage that there's no accounting for tastes Nobel Laureate Gary Becker disagrees and in this lively new collection he

confronts the problem of preferences and values how they are formed and how they affect our behavior He argues that past experiences and social influences form two basic capital stocks personal and social He then applies these concepts to assessing the effects of advertising the power of peer pressure the nature of addiction and the function of habits This framework promises to illuminate many other realms of social life previously considered off limits by economists
