The Meaning of Love Vladimir Sergeyevich Solovyov, 2020 The meaning and worth of love as a feeling is that it really forces us with all our being to acknowledge for another the same absolute significance that because of the power of egoism we are conscious of only in our own selves Love is important not only as one of our feelings but as the transfer of all our interest in life from ourselves to another as the shifting of the very center of our lives The meaning of human love speaking generally is the justification and salvation of individuality through the sacrifice of egoism On this general basis we can also explain the meaning of sexual love Vladimir Solovyov What is the meaning of love's intense emotion Solovyov points to the spark of divinity that we see in another human being and shows how this living ideal of Divine love antecedent to our love contains in itself the secret of the idealization of our love According to Solovyov love between men and women has a key role to play in the mystical transfiguration of the world Love which allows one person to find unconditional completion in another becomes an evolutionary strategy for overcoming cosmic disintegration Solovyov's book I would dare say IS the philosophy of love Solovyov's arguments are engaging to say the least engaging the intellect but also the depths of the reader's being You can't say that about many books The highest praise I can offer is that The Meaning of Love is the only modern book I know of that is worthy of its subject in every respect David Fiedler Gnosis magazine

happens after vows are exchanged or after the sunset peaks or when Odysseus home from Troy reunites with his wife Penelope Myth is silent then In his Little Book on Love Needleman offers a new interpretation of why two people are brought together in love in the first place What can lovers give to each other over a lifetime That is the challenge for couples for whom the first mystery of love has passed and the work of living together begins What is the purpose of love What is its value The answers says Needleman are found in how two people can help each other in the search for life s meaning and in the uncommon tales of sustained love he proposes as models of thought and behavior

essential in life It is also one of the keys to progress In any community or among any group of people that embarks in a project if love is lacking no doubt there will be no progress in it because using the principles of love brings progress Both secular and religious thinkers agreed that love plays a central role in life numerous books songs magazines and movies were written around this subject yet it is the most confusing and misconceived word especially in this present generation Writing a book of this nature has been a challenging experience Long ago to be precise on 29th of May 2005 I was in a children program tagged Love in Action where the children presented a playlet which described an unconditional love It was through this ministration that my eyes were opened and as I began to ruminate on this topic series of questions began to spring forth within me such as Is there love again What really is love How would people really know what love is all about and how can we live or act in real love It is evident that love is fast fading out in our Society and what we now have is deceit insincerity and hypocrisy Today couples families groups societies are living in deceitful love not real love I heard a story narrated recently on air where a woman was asking the public whether to stay or leave her husband because the husband had an accident and in the process he lost his spinal cord which means he s no more active as a man then I asked if that was enough a reason to leave someone you confessed you love is that the basis of her love for her husband Or let s even ask ourselves before we crucify this woman why do we love Why do you love your loved ones Is it because of qualities they posses their beauty money intellects shapes and body structure If you love because someone possesses something if that thing is no more there then what happens to your love for such Will you still love There is much to say about love but I want to focus on this aspect that the Lord has opened my eyes to Therefore this book shall address questions such as how do we define love what are the attributes of love What does it mean to say that God is love How do we love And so on The book shall highlight the basic principles of love If you study these principles and you have the resolve to use it in everything you do you will almost certainly accomplish your purpose in building your life your family even the society
