Six months ago his sister died and now her children are in foster care. Despite having the law on his side, John can't get custody, can't even see his niece and nephew. As Jerry and John grow closer, John discovers he doesn't have to struggle alone. Jerry helps him win visitation rights and provides much-needed support. Yet their victories aren't without setbacks. Child Services is tangled up with money, politics, and red tape, and Native American children are their bread and butter. But John and Jerry are determined to fight the good fight and to win in more ways than one.

Applied Theatre in Paediatrics Persephone Sexton, 2022-12-30. This book explores applied theatre practice for children in environments of illness and cure and how it can powerfully normalise children's hospitalisation experience. It is an essential tool for making meaning of children's illness, putting it into a fictional context and developing better control of their clinical experiences. It can be central to raising the standards of care and quality of life during illness. Taken from the author's research and participatory bedside theatre practice in hospitals before, during, and after the COVID-19 pandemic, this book demonstrates new learning about aesthetics, ethics, emotions, stories, puppetry, digital arts, and research methodologies about children's health and wellbeing. It provides a selection of ten unique stories told by children inspired by applied theatre practice in paediatrics, cardiac oncology, neurosurgery, burns units, and complex and intensive care wards. Stories aid in understanding the language of children's pain for a better assessment and management of pain by healthcare professionals through the arts. It analyses synergistic theatre performance in stitched lands between challenging realities and safe fictionalities. This book enables artists to develop new ways of thinking and contributes to further improvements in the provision of education and reflective learning in the field. It also addresses the emotional labour of the artist in healthcare and makes recommendations for balanced training to prevent emotional exhaustion. Designed for artists, healthcare professionals, therapists, play specialists, and teachers who work with children in healthcare, this text aims to help many people find creative ways of making a positive difference in sick children's lives. It is a book for those who love and care for children.
