compassionate more understanding and more connected to others We find joy in the simplest things and we experience a sense of fulfillment that is unmatched by anything else Love is the driving force behind our greatest achievements It inspires us to reach for the stars and to make a difference in the world It gives us the strength to overcome obstacles and to persevere in the face of adversity Love is the glue that holds families and communities together It is the foundation of lasting friendships and the bedrock of strong marriages But what is love truly How can we define this elusive emotion Is it a feeling a choice or a combination of both Is it something that we are born with or something that we learn These are just some of the questions that this book explores Love is a universal experience yet it is also deeply personal In this book you will find stories of love that will resonate with your own experiences as well as stories that will challenge your assumptions about love You will read about couples who have overcome incredible odds to be together about people who have found love in unexpected places and about individuals who have learned to love themselves after years of self doubt Whether you are single in a relationship or somewhere in between this book has something to offer you It is an invitation to reflect on your own experiences with love and to deepen your understanding of this powerful emotion It is a reminder that love is always worth fighting for even when it is difficult If you like this book write a review on google books

Truth(s) Armin Burkhardt,Brigitte Nerlich,2010-04-23 Tropes are not only rhetorical means which are used as a creative and or persuasive linguistic means in poetry and public speech They are also a cognitive tool which helps people to understand the world and to express their world As they are the basis on which our worldview and even our everyday speech is founded the question must be posed as to whether utterances containing tropes can be said to be true This has been an epistemological problem since Nietzsche expressed his doubts about the possibility that figurative language could give access to truth However since then research has paid little attention to this question 18 papers by linguists philosophers psychologists and literary scholars have been collected in this volume Their 21 authors use various approaches or paradigms in order to define metaphor metonymy synecdoche irony euphemism antonomasia and hyperbole and find an answer to the
