Moving Culture Enquiry Into The Cultural Activities Of Young People:

Moving Culture Paul E. Willis, 1990 *Freedom and Culture in Western Society* Hans Blokland, 2019-03-07 Critically examining conceptions of freedom of some of the leading contemporary philosophers from Isaiah Berlin to Charles Taylor Hans Blokland explores the value and significance that freedom has acquired on our political consciousness He looks specifically at positive and negative freedom freedom of the individual freedom and society emancipation and paternalism freedom and cultural politics *Youth Identities, Localities, and Visual Material Culture* Kristen Ali Eglinton, 2012-10-05 This invaluable addition to Springer's Explorations of Educational Purpose series is a revelatory ethnographic account of the visual material culture of contemporary youths in North America The author's detailed study follows apparently dissimilar groups black and Latino in a New York City after school club and white and Indigenous in a small Canadian community as they inflect their nascent identities with a sophisticated sense of visual material culture in today's globalized world It provides detailed proof of how much ethnography can add to what we know about young people's development in addition to its potential as a model to explore new and significant avenues in pedagogy Supported by a wealth of ethnographic evidence the analysis tracks its subjects' responses to strikingly diverse material ranging from autobiographical accounts by rap artists to the built environment It shows how young people from the world's cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people's perspectives the author's account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today's youth assimilate what they perceive to be significant Supported by a wealth of ethnographic evidence the analysis tracks its subjects' responses to strikingly diverse material ranging from autobiographical accounts by rap artists to the built environment It shows how young people from the world's cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people's perspectives the author's account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today's youth assimilate what they perceive to be significant Supported by a wealth of ethnographic evidence the analysis tracks its subjects' responses to strikingly diverse material ranging from autobiographical accounts by

rap artists to the built environment It shows how young people from the world's cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people's perspectives the author's account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today's youth assimilate what they perceive to be significant Youth, Media and Culture in the Asia Pacific Region Usha M. Rodrigues, Belinda

Smail, 2009-05-05 Youth Media and Culture in the Asia Pacific Region presents an analysis of youth media activities in a diverse but geographically connected Asia Pacific region The region which is spatially connected by its colonial and imperial past is becoming a significant player in the globalized world In this context youth situated in these economically politically and socially structured communities are redefining their locales through their patterns of media use The discourse of youth in this disparate region is manifest in the media through their identity articulations and social activism The book illustrates that these youth subcultures in the Asia Pacific are part of the well marketed global consumerism culture and yet at other times independent of the commodifying impetus of global capital It draws on case studies to examine some of the media practices youth in the region are engaged in and elucidates the process of social change taking place in some Asia Pacific nations This book contributes to the important and growing field of youth media studies The regionalization of media research is necessarily recuperated here bringing large populations of media users into a frame of reference that allows critical reflection on the new waves of use and sociality in the Asia Pacific region Stephanie Hemelryk Donald Professor of International Studies UTS Contemporary Culture and Media in Asia Daniel Black, Olivia Khoo, Koichi Iwabuchi, 2016-09-23

The study of Asian culture media and communications is an area that has developed rapidly over the past two decades This rapid development has led to the deployment of diverse scholarly approaches while simultaneously raising important questions regarding the extent to which the use of key terms such as nation citizenship and modernity must be modified to reflect the specificity of an Asian context Furthermore the irrepressible flows of popular cultural forms and the enthusiastic adoption of new communications technologies across the region demand approaches that can accommodate the dynamism and diversity of Asian culture and media Contemporary Culture and Media in Asia brings together leading scholars from Asia North America and Australia to address questions related to these challenges producing new insights and frameworks that can be productively utilized by students and scholars working in the field **Culture and the Public Sphere** Jim

present time Finney presents a compelling analytical account through a series of six episodes each seeking to capture the spirit and fervour characteristic of a particular phase within the period studied In the concluding chapter the narrative developed is reviewed From this the idea of music education as an ethical pursuit is proposed Finney argues that classroom relationships can be thought of as playfully dialogic where teacher and pupil remain curious and where there is serious attention to what is to be taught and why This will always need to be negotiated with the expressed and inferred needs of children working together to find a critical approach to what is being learnt Finney's book provides fresh inspiration for practitioners and new challenges for researchers and as such is a landmark in the field of arts and music education
