

Introduction

At 8:00 in the night, on January 27th, 1756, the **greatest musical genius of all time** entered this world. He would come to be known worldwide as **Wolfgang Amadeus Mozart**. In the short thirty-five years he lived, Mozart would compose over 600 works, including over 50 symphonies like his famous *Kleine Nachtmusik* and *Requiem*; more than 21 operas like *The Marriage of Figaro*, *Don Giovanni*, and *The Magic Flute*; and much more music.

However, Mozart's life consisted of much, much more than just the music that remains of him. So let us go deeper into and learn more about the life of the greatest musician ever: Wolfgang Amadeus Mozart.

A sketch and a portrait of Mozart, considered to show what the genius actually looked like. The portrait (right) was made by Joseph Lange, Mozart's wife's sister's husband. The sketch (left) was made by Doris Stock in 1789, when Mozart was only 33 years old—two years before his untimely death.

Mozart and the Mediation of Childhood Adeline Mueller,2021-07-16 The story of Wolfgang Amadeus Mozart s precocity is so familiar as to be taken for granted In scholarship and popular culture Mozart the Wunderkind is often seen as belonging to a category of childhood all by himself But treating the young composer as an anomaly risks minimizing his impact In this book Adeline Mueller examines how Mozart shaped the social and cultural reevaluation of childhood during the Austrian Enlightenment Whether in a juvenile sonata printed with his age on the title page a concerto for a father and daughter a lullaby a musical dice game or a mass for the consecration of an orphanage church Mozart s music and persona transformed attitudes toward children s agency intellectual capacity relationships with family and friends political and economic value work school and leisure time Thousands of children across the Habsburg Monarchy were affected by the Salzburg prodigy and the idea he embodied that childhood itself could be packaged consumed deployed performed in short mediated through music This book builds upon a new understanding of the history of childhood as dynamic and reciprocal rather than a mere projection or fantasy as something mediated not just through texts images and objects but also through actions Drawing on a

range of evidence from children's periodicals to Habsburg court edicts and spurious Mozart prints Mueller shows that while we need the history of childhood to help us understand Mozart we also need Mozart to help us understand the history of childhood

Mozart's Requiem Simon P. Keefe, 2012-06-28 Presenting a fresh interpretation of Mozart's Requiem Simon P Keefe redresses a longstanding scholarly imbalance whereby narrow consideration of the text of this famously incomplete work has taken precedence over consideration of context in the widest sense Keefe details the reception of the Requiem legend in general writings fiction theatre and film as well as discussing criticism scholarship and performance Evaluation of Mozart's work on the Requiem turns attention to the autograph score the document in which myths and musical realities collide Franz Xaver Süssmayr's completion 1791/2 is also re appraised and the ideological underpinnings of modern completions assessed Overall the book affirms that Mozart's Requiem fascinating for interacting musical biographical circumstantial and psychological reasons cannot be fully appreciated by studying only Mozart's activities Broad ranging hermeneutic approaches to the work moreover supersede traditionally limited discursive confines

The Tooth That Nibbles at the Soul Marshall Brown, 2014-07-01 The Tooth that Nibbles at the Soul brings together Marshall Brown's new and previously published writings on literature and music These essays engage questions that are central to the development of literature music and the arts in the period from Romanticism at the end of the eighteenth century to the avant garde movements of the early twentieth a period in which the modern evolution of the arts is coupled with a rise in the significance of music as artistic form With a special focus on lyric poetry and canonical composers including Mozart Bach Beethoven Brahms and Schubert Brown ties the growing prominence of music in this period to the modernist principle of abstraction Music as Brown provocatively notes conveys meaning without explicitly saying anything This principle of abstraction could be taken as the overriding formula for modernist art in general and it explains why in this

period music becomes the model to which all the other arts in particular painting and literature aspire Brown's title taken from a poem by Emily Dickinson reminds us that abstraction musical and artistic is anything but toothless indeed it nibbles at the soul in subtle and enduring ways Throughout his wide ranging and erudite analysis Brown's goal is to pinpoint the nature of music's bite and to illuminate the shared elements of literature and music While there are many previous comparisons of music and poetry few are systematic or based on a solid knowledge of both literary criticism and musicology Brown's essays can be enjoyed by a general well read public not trained in either music or eighteenth century literature as well as by an audience steeped in sophisticated if not technical musical analysis
