Berger,2007-10-02 In this erudite and elegantly composed argument Karol Berger uses the works of Monteverdi Bach Mozart and Beethoven to support two groundbreaking claims first that it was only in the later eighteenth century that music began to take the flow of time from the past to the future seriously second that this change in the structure of musical time was an aspect of a larger transformation in the way educated Europeans began to imagine and think about time with the onset of modernity a part of a shift from the premodern Christian outlook to the modern post Christian worldview Until this historical moment as Berger illustrates in his analysis of Bach s St Matthew Passion music was simply in time Its successive events unfolded one after another but the distinction between past and future earlier and later was not central to the way the music was experienced and understood But after the shift as he finds in looking at Mozart s *Don Giovanni* the experience of linear time is transformed into music s essential subject matter the cycle of time unbends and becomes an arrow Berger complements these musical case studies with a rich survey of the philosophical theological and literary trends influencing artists during this period **The Mostly Mozart Guide to Mozart** Carl Vigeland,2009-07-08 A fresh accessible guide to Mozart s life and works Over a period of roughly twenty years Wolfgang Amadeus Mozart composed more than 600 finished pieces of music If you were the director of a major symphony orchestra you could program only works by Mozart for an entire year and still you would barely have scratched the surface of the composer s immense and immensely moving body of work The Mostly Mozart Guide to Mozart is an accessible insightful and entertaining resource for music lovers looking for a deeper understanding of the genius of Mozart It combines a brief and revealing account of his life and times with a comprehensive
