Brazilian studies and Latin American studies from the United States and Latin America to examine both Coutinho's masterpieces and less studied films Using a range of approaches the contributors invite new ways of understanding the documentarian's trajectory and importance as his work transformed in response to dictatorship democratization and other political social and technological changes over the course of five decades The volume also features original translations of a selection of Coutinho's writings and key texts by Brazilian critics to offer a historical perspective on his filmmaking and its reception

**Profile Pieces** Sue Joseph, Richard Lance Keeble, 2015-10-14 This book examines the history theory and journalistic practice of profile writing Profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject exemplify the changing nature of journalism itself While the subject often through the medium of their press representative struggles to retain control of the interview space the journalist seeks to subvert it This interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism However chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated individuals The volume looks at the profile's historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma
