Red Zones Marie-Eve Sylvestre, Nicholas Blomley, Céline Bellot, 2020-01-02 In *Red Zones* Marie-Eve Sylvestre Nicholas Blomley and Céline Bellot examine the court imposed territorial restrictions and other bail and sentencing conditions that are increasingly issued in the context of criminal proceedings Drawing on extensive fieldwork with legal actors in the criminal justice system as well as those who have been subjected to court surveillance the authors demonstrate the devastating impact these restrictions have on the marginalized populations the homeless drug users sex workers and protesters who depend on public spaces On a broader level the authors show how red zones unlike better publicized forms of spatial regulation such as legislation or policing strategies create a form of legal territorialization that threatens to invert traditional expectations of justice and reshape our understanding of criminal law and punishment *Person of Interest Investigator's*

Walker** Ludwig Friedrich KAEMTZ,1845 **Police Peacekeeping** Lou Pingeot,2023-09-07 UN peace operations increasingly deploy police forces and engage in policing tasks The turn to police peacekeeping has generally been met with enthusiasm in both academic and policy circles and is often understood to provide a more civilian instrument of intervention better suited to mandates that increasingly emphasize protection Rebuilding local police forces along democratic liberal lines is seen as a prerequisite for a successful transition towards peace and stability In this book Lou Pingeot questions this optimistic reading of police peacekeeping and demonstrates that the logic of policing leads to the depoliticization of conflict and the criminalization of those who are deemed to threaten not just public order but social order authorizing violence against them in the name of law enforcement Police Peacekeeping proposes a new way of studying peace operations that focuses not on their success or failure but on how they allow people and ideas to circulate transnationally It shows that peace operations act as a point of cross fertilization for the creation and transmission of policing discourses and practices globally In so doing these missions contribute to re producing social orders that are based on the

exclusion of often racialized socio economically marginalized populations both domestically in countries of intervention and internationally in troop contributing countries The book draws on and contributes to critical understandings of police power that show that police forces were never meant to protect all equally It also furthers our understanding of policing at a global level Drawing on interpretive feminist and postcolonial methodologies that emphasize relations processes and situatedness Lou Pingeot s in depth study of UN intervention in Haiti shows how a single site can help illuminate global processes Rather than starting from Haiti s supposed deviance from international expectations and norms she posits that Haiti can reveal a great deal about how policing functions globally *Calyx* ,1983 **Descorchados 2019 English** Patricio Tapia, Published for the first time in 1999 Descorchados is the most important guide to the wines of South America This year no fewer than 4 341 samples from Argentina Brazil Chile and Uruguay crossed the Descorchados tasting table and 3 177 of them are included in this book It s an enormous job but one we are very passionate about Beyond the stats however we at Descorchados aim to offer a broad overview of what s happening in the world of wine on this side of the planet The latest trends the newest valleys the varieties that have been recovered or adopted the names to keep an eye on and the work being done by the large and small wineries alike If they have character we re interested in them Descorchados is a large and in depth journalistic report that we do once a year to provide a wide angle view of the dynamic and increasingly entertaining Latin American wine scene More than 3 000 wines reviewed in this edition and you re sure to find more than one you like in Descorchados 2019 Cheers

,1921 Predicting Financial Crises: The Role of Asset Prices Tristan Hennig,Mr. Plamen K Iossifov,Plamen Iossifov,Mr. Richard Varghese,2023-08-04 We explore the early warning properties of a composite indicator which summarizes signals from a range of asset price growth and asset price volatility indicators to capture mispricing of risk in asset markets Using a quarterly panel of 108 advanced and emerging economies over 1995 2017 we show that the combination of rapid asset price growth and low asset price volatility is a good predictor of future financial crises Elevated levels of our indicator significantly increase the probability of entering a crisis within the next three years relative to normal times when the indicator is not elevated The indicator outperforms credit based early warning metrics a result robust to prediction horizons methodological

choices and income groups Our results are consistent with the idea that measures based on asset prices can offer critical information about systemic risk levels to policymakers
