the urban underclass Soon the scarecrow category and its demonic imagery were exported to the United Kingdom and continental Europe and agitated the international study of exclusion in the postindustrial metropolis In this punchy book Lo c Wacquant retraces the invention and metamorphoses of this racialized folk devil from the structural conception of Swedish economist Gunnar Myrdal to the behavioral notion of Washington think tank experts to the neo ecological formulation of sociologist William Julius Wilson He uncovers the springs of the sudden irruption accelerated circulation and abrupt evaporation of the underclass from public debate and reflects on the implications for the social epistemology of urban marginality What accounts for the lemming effect that drew a generation of scholars of race and poverty over a scientific cliff What are the conditions for the formation and bursting of conceptual speculative bubbles What is the role of think tanks journalism and politics in imposing turnkey problematics upon social researchers What are the special quandaries posed by the naming of dispossessed and dishonored populations in scientific discourse and how can we reformulate the explosive question of race to avoid these troubles Answering these questions constitutes an exacting exercise in epistemic reflexivity in the tradition of Bachelard Canguilhem and Bourdieu and it issues in a clarion call for social scientists to defend their intellectual autonomy against the encroachments of outside powers be they state officials the media think tanks or philanthropic organizations Compact meticulous and forcefully argued this study in the politics of social science knowledge will be of great interest to students and scholars in sociology anthropology urban studies ethnic studies geography intellectual history the philosophy of science and public policy
