Notes Of Jane Heap:

The Notes of Jane Heap Jane Heap, 1983 Gurdjieff: The Key Concepts Sophia Wellbeloved, 2013-04-15 This unique book offers clear definitions of Gurdjieff's teaching terms placing him within the political geographic and cultural context of his time Entries look at diverse aspects of his Work including possible sources in religious Theosophical occult esoteric and literary traditions the integral relationships between different aspects of the teaching its internal contradictions and subversive aspects the derivation of Gurdjieff's cosmological laws and Ennegram the passive form of New Work teaching introduced by Jeanne de Salzmann Gurdjieff Joseph Azize, 2020 This is the first analysis of all of Gurdjieff's published internal exercises together with those taught by his students George and Helen Adie It includes a fresh biographical study of Gurdjieff with ground breaking observations on his relationships with P D Ouspensky and A R Orage especially why he wanted to collaborate with them and why that broke down It shows that Gurdjieff was fundamentally a mystic and that his contemplation like methods were probably drawn from Mt Athos and its hesychast tradition It shows the continuity in Gurdjieff's teaching but also development and change His original contribution to Western Esotericism lay in his use of tasks disciplines and contemplation like exercises to bring his pupils to a sense of their own presence which could to some extent be maintained in daily life in the social domain and not only in the secluded conditions typical of meditation It contends that he had initially intended not to use contemplation like exercises as he perceived dangers to be associated with these monastic methods and the religious tradition to be in tension with the secular guise in which he first couched his teaching As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post religious culture he found it necessary to introduce contemplation His development of the methods is demonstrated and the importance of the three exercises in the Third Series Life Is Real only then when I Am is shown together with their almost certain borrowing from the exercises of the Philokalia G I Gurdjieff P D Ouspensky A R Orage George Adie Mysticism Meditation Contemplation Fourth Way Hesychasm Western Esotericism New Directions in Print Culture Studies Jesse W. Schwartz, Daniel Worden, 2022-06-16 New Directions in Print Culture Studies features new methods and approaches to cultural and literary history that draw on periodicals print culture and material culture thus revising and rewriting what we think we know about the aesthetic cultural and social history of transnational America The unifying questions posed and answered in this book are methodological How can we make material archival objects meaningful How can we engage and contest dominant conceptions of aesthetic historical and literary periods How can we present archival material in ways that make it accessible to other scholars and students What theoretical commitments does a focus on material objects entail New Directions in Print Culture Studies brings together leading scholars to address the methodological historical and theoretical commitments that emerge from studying how periodicals books images and ideas circulated from the 19th century to the present Reaching beyond national boundaries the essays in this book focus on the different materials and archives we can use to rewrite

literary history in ways that highlight not a canon of major literary works but instead the networks dialogues and tensions that define print cultures in various moments and movements Women Editing Modernism Jayne Marek, 2021-10-21 For many years young writers experimenting with forms and aesthetics in the early decades of this century small journals known collectively as little magazines were the key to recognition Joyce Stein Eliot Pound Hemingway and scores of other iconoclastic writers now considered central to modernism received little encouragement from the established publishers It was the avant garde magazines many of them headed by women that fostered new talent and found a readership for it Jayne Marek examines the work of seven women editors Harriet Monroe Alice Corbin Henderson Margaret Anderson Jane Heap H D Bryher Winifred Ellerman and Marianne Moore whose varied activities often behind the scenes and in collaboration with other women contributed substantially to the development of modernist literature Through such publications as Poetry The Little Review The Dial and Close Up these women had a profound influence that has been largely overlooked by literary historians Marek devotes a chapter as well to the interactions of these editors with Ezra Pound who depended upon but also derided their literary tastes and accomplishments Pound's opinions have had lasting influence in shaping critical responses to women editors of the early twentieth century In the current reevaluation of modernism this important book long overdue offers an indispensable introduction to the formative influence of women editors both individually and in their collaborative **Reflections on Gurdjieff's Whim** Keith A. Buzzell,2012-04 Local Notes and Gleanings ,1887 efforts **Three-brained Being** Keith A. Buzzell, 2007 Local notes and gleanings, Oldham and neighbourhood in bygone times, ed. by G. Shaw Shaw Giles ed,1887 Yorkshire Notes and Oueries: with the Yorkshire Genealogist, Yorkshire Bibliographer, and Yorkshire Folk-lore Journal ,1888 Historic Avant-Garde Work on Paper Sascha Bru, 2024-03-13 This book examines the many functions of paper in the fine art and aesthetics of the early twentieth century modernist or historic avant garde Expressionism Cubism Futurism Dadaism Surrealism Constructivism and many more With its many collages and photomontages the historic avant garde is generally considered to have transformed paper from a mere support into an artistic medium and to have assisted in art on paper gaining a firm autonomy Bringing together an international team of scholars this book shows that the story of paper in the avant garde has thereby hardly been told The first section looks at a selection of canonized individual avant gardists work on paper to demonstrate that the material and formal analysis of paper in the avant garde's artistic production still holds much in store In the second section chapters zoom in on forms and formats of collective artistic production that deployed paper to move around reproductions of fine art works to facilitate the dialogue between avant gardists to better promote their work among patrons and to make their work available to a wider audience Chapters in the third section lay bare how certain groups within the avant garde began to massively create monochrome works because these could be easily reproduced when transferred to or reproduced as linocuts In the last section of the book chapters explore how the avant garde's attentiveness to paper almost always also implied a critique of the ways in which

paper and all that it stood for was treated and labored in European culture and society more broadly The book will be of interest to scholars working in art history modernism and design **Explorations in Active Mentation** Keith A.

Buzzell,2006 The Oxford Critical and Cultural History of Modernist Magazines Peter Brooker, Andrew Thacker, 2009 This volume contains 44 original essays on the role of periodicals in the United States and Canada Over 120 magazines are discussed by expert contributors completely reshaping our understanding of the construction and emergence of modernism

Modern American Queer History Allida Mae Black,2001 In the twentieth century countless Americans claimed gay lesbian bisexual and transgender identities forming a movement to secure social as well as political equality This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change Whether the subject is an individual life story a community study or an aspect of public policy these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance Theoretically informed but accessible the essays shed light too on the difficulties of writing history when documentary evidence is sparse or coded Taken together these essays suggest that while some individuals and social networks might never emerge from the shadows the persistent exploration of the past for their traces is an integral part of the on going struggle for queer rights **Acorns: Windows** High-Tide Foghat** Joshua Morris, 2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around

Sigler,2022-06-30 Exploring the collaborative consumer oriented Modernism that developed out of both planned and
fortuitous groupings in periodicals this book traces the serialization and advertisement of Henry James s The Turn of the
Screw in Collier s 1898 Rudyard Kipling s Kim in McClure s and Cassell s 1900 1901 James Joyce s Ulysses in the Little
Review 1918 1920 and Virginia Woolf s Mrs Dalloway in Bond Street in the Dial 1923 These periodicals whether mass market

that compromise and chance played in the emergence of Modernism Bringing to light new research from multiple archives
Sigler pieces together original records of journals advertising strategies previously unpublished editorial correspondence and
long buried letters to unearth the forgotten stories behind the texts we think we know so well

One Must Not Go
Altogether with the Tide Ezra Pound,C. S. Nott,Robin Edward Feenstra,2011 Ezra Pound 1885 1972 is widely remembered
not only as one of the most influential voices in twentieth century literary modernism but also for his notorious anti Semitic
writings and radio broadcasts that supported Mussolini s Italian Fascist regime His ideological turn from poetics and

aestheticism to extremist economics and politics has long been an area of controversy within literary studies One Must Not Go Altogether with the Tidecollects the letters between Pound and London publisher Stanley Nott 1887 1978 to open a door to Pound's thinking and publications during the 1930s Nott who published Jefferson and or Mussolini 1935 was an interested and encouraging interlocutor for a poet seeking re invention as an economist and political commentator someone who sustained Pound as he swam against the tide Pound's close involvement with his publisher illuminates an important episode in literary modernism as well as For The study of print culture in the interwar period This edition of the letters retains Pound s idiosyncratic epistolary idiom and analyzes letter writing as a genre critical to Pound's intellectual and cultural project capturing Pound as a collaborator at work Modernist Poetics of Ageing Jade Elizabeth French, 2025-01-12 What happens when the modern woman ages Modernist Poetics of Ageing answers this question by being the first book length study of three late modernist women s writers Drawing on their place within wider modernist networks this monograph is primarily framed around work by Mina Loy H D and Djuna Barnes who are often thought of as the guintessentially youthful modern woman of the 1920s Taking a literary ageing studies and cultural criticism approach this monograph focuses on lived experience as well as thematic representations of ageing in their work to examine how each author grew older in the years 1940 1982 By surveying literary texts visual art photography life writing and archival material this book explores the intersection of old age as lived and as well as written to argue that modernist late writing embodies the realities of ageing and transforms them through avant garde aesthetics As an interdisciplinary study this work pairs ageing studies and modernist studies to innovatively consider experimental works written about and in later life The book suggests that a focus on older age complicates the very avant garde or modernist aesthetics that each author was interested in what happens when the scene of the new is populated by older people How does an embodied experience of illness inform an aesthetics of late style After fulfilling their role as the youthful modern woman of the 1920s how did each artist continue to create rich avant garde works that go well beyond the paradigms of late modernism Modernist Poetics of Ageing argues that the late lives of some of modernism s most prominent and networked women writers are overlooked despite being rich vital and contemporary in their continuing commitment to modernist experiment By reframing these older modernist women writers as engaged in continuing creative experiments Modernist Poetics of Ageing reveals that the new does not always have to be Hemingway The Paris Years Michael Reynolds, 1999-05-04 The 1920s in Paris are the pivotal years in Hemingway s voung apprenticeship as a writer whether he was sitting in cafes or at the feet of Gertrude Stein These are the heady times of the Nick Adams short stories and the writing of The Sun Also Rises also Hemingway s first marriage to Hadley Richardson the birth of his first son and his discovery of the bullfights at Pamplona Book jacket
