Notes Of Night:

Notes from the Other Side of Night Juliana Geran Pilon, 2017-07-12 Notes from the Other Side of Night is a diary memoir written upon Juliana Geran Pilon's return to her native Romania in 1975 which she had left along with her family when she was just fourteen. Poetically weaving together modern insight and realities with childhood perceptions, Pilon tells the haunting stories of her parents, grandparents, neighbors, and friends. Although the scenery of her native home had remained essentially unchanged since her childhood, Pilon recalls streets that are no more, homes and churches that have been demolished. Yet the hills and forests, the flowers and mountains, the heat of old Bucharest remained the same. The scenes and characters described in this book are simply unforgettable. Despite the many tragedies it describes—anti-Semitism, political imprisonment, and judicial execution—these were ruthless realities under communism. Notes from the Other Side of Night is not a depressing book. Pilon writes with a detached melancholy about events and characters that illustrate Hannah Arendt's terrifying banality of evil. But she remembers as well those few who managed to remain human beings until the end. Ultimately, hope triumphs in this memoir. This edition includes a new foreword which discusses the initial writing and publication of this and previous editions.

The Metaphysics of Night Matthew Del Nevo, 2014-04-18 The Metaphysics of Night acknowledges a post-secular philosophy, one that puts philosophy into serious dialogue with religion rather than considering religion a thing of the past. Matthew Del Nevo deals with the cultural unconscious, inseparable from religious consciousness, and draws on psychoanalysis and literature as well as philosophy. The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul. Philosophically, the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion. Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy. Arguing for strong aesthetic values, Del Nevo defends and explains soul and soulful experience, the creation of depth, the ineffable, real presence, beauty, and saving words, noting that the sources of all these are in us but often are blocked. Each of the five parts of this book testifies to what the author notes may be forgotten but which ought not to be forgotten. It is necessary for life as socially, religiously, and educationally instituted within culture and as constitutive for culture. Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based. He argues for a shift of emphasis in culture from intellect to intuition. This well-written work, filled with Catholic philosophic and artistic thought, will be of interest to all philosophers, theologians, and students of culture.

The Night Albums Kate Palmer Albers, 2021-11-30 We live in an era of abundant photography Is it then counterintuitive to study photographs that disappear or are difficult to discern Kate Palmer Albers argues that it is precisely this current cultural moment that allows us to recognize what has always been a basic and foundational yet unseen condition of photography its ephemerality Through a series of case studies spanning the history of photography *The Night Albums* takes up the provocations of artists who collectively redefine how we experience visibility From the protracted hesitations of photography's origins to conceptual and performative art that has emerged since the 1960s to the waves of technological experimentation flourishing today Albers foregrounds artists who offer fleeting hidden conditional and future modes of visibility By unveiling how ephemerality shapes the photographic experience she ultimately proposes an expanded framework for the medium
