Concepts of Culture Adam Muller, 2005 How do we define culture In this volume Adam Muller brings together contributions from established and emerging scholars in a number of different disciplines who each examine the concept of culture as it is understood and deployed within their respective fields      **The Popular Front and the Global Circulation of Marxism through Calcutta, 1920s-1970s** Prasanta Dhar, 2022-11-29 This book examines the global circulation of Marxism seen from one of its most highly charged sites Calcutta in India Building on but also revising existing approaches to global intellectual history the book presents the circulation of Marxism through Calcutta as a historically sited problem of mass mediation Using tools from media studies the book explores the way that Marxism was presented to the public the technologies used and the meanings of Marxism in twentieth century Calcutta Demonstrating how the Popular Front was split between the so called people s group and those whom were called intellectuals the book argues that the people s group generally identified themselves as Marxists and preferred audio visual media such as theatre while the so called intellectuals privileged academic rigour and print media usually referring to themselves as Marxians Thus the author reveals a polyphony of Marxisms in the Popular Front Tracing Marxism back to the Bengal Renaissance and the Swadeshi and Naxal movements this book shows how debate around the meaning of Marxism continued throughout the 1970s in Calcutta and eventually engendered the historiographical movement that has come to be known as Subaltern Studies      *The Intellectual Roots of India's Freedom Struggle (1893-1918)* Prithwindra Mukherjee, 2017-12-22 Most people believe India s struggle for independence to have begun with Mahatma Gandhi Little credit goes to the proof that this call for a mass movement did not arise out of a void For the past century and more historians have overlooked the phase of twenty five years of intense

creative endeavour preceding and preparing for the Mahatma's advent. The reason for this systematic omission has been the fundamentally radical nature of the revolutionary programme put to practice by Indian leaders of late nineteenth and early twentieth centuries. Jugantar was diametrically distinct from the dream of non violence floated by the Mahatma and the Congress. Very well documented with inputs from Indian, European and American archives, the present study carefully straightens out the origins, philosophical, historical and religious and intellectual, so to say, of Indian nationalism. From Rammohun to Sri Aurobindo, passing through Marx and Tagore, the full set of ideological views has been analysed here. Unknown up to this day, the sustained focus in this volume on the outlook and the activities of these revolutionaries inside India and abroad brings home the very sophisticated understanding of the contemporary political reality that made their leader, Jatindranath Mukherjee, the right hand man of Sri Aurobindo, the very emblem of an epoch and its aspirations. Please note, Taylor Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Posthumanist Nomadisms across Non-Oedipal Spatiality Java Singh, Indrani Mukherjee, 2022-02-22. As an epistemological perspective, nomadism is an emerging field of scholarship offering intersectionality with eco-criticism, feminism, post-colonialism, migration studies and translation. Much of the scholarship that uses the precepts of nomadism to read cultural texts and phenomena is scattered as separate articles in academic journals or as single chapters in books wherein the primary focus is the intersectional fields. Few book-length publications solely focus on the ramifications of nomadism. *Posthumanist Nomadisms across non-Oedipal Spatiality* fills that void. The fifteen chapters in this volume explore the possibilities offered by the nomadic perspective to explore a wide range of literary and cultural texts organized into three sections: Nomadic Assemblages, Non-Oedipal Cartographies and Space-Time Montages that work as one to negate absorption into the interiority of sovereign territory. These sections are not an attempt at corralling the nomadic spirit into separate enclosures; instead, they are bands of warriors that operate the violence of the hunted animal, dehumanized human others and earth others. The chapters are in constant multi-vocal conversations with narratives that camp on the turbulent weathers of global transitory spaces. They charter real or intellectual turfs of interstitial rhizomatic nomadic epistemologies as political resistance to the exclusionary practices of a violently wired world. This book will appeal to post-graduate students, researchers and faculty in the departments of literature, comparative literary and cultural studies. Researchers in sociology, cultural anthropology, gender studies and migration studies will also find the material applicable to the expanding approaches available in their fields.

*Essays of a Lifetime* Sumit Sarkar, 2018-12-27. A distillation of the historian's finest writings on modern Indian historical themes. For the past forty years or more, the most influential, respected and popular scholar of modern Indian history has been Sumit Sarkar. When his first monograph, *The Swadeshi Movement in Bengal 1903-1908*, appeared in 1973, it soon became obvious that the book represented a paradigm shift within its genre. As Dipesh Chakrabarty put it when the work was republished in 2010, "Very few monographs, if any, have ever rivalled the meticulous

research and the thick description that characterized this book or the lucidity of its exposition and the persuasive power of its overall argument Ten years later Sarkar published Modern India 1885 1947 a textbook for advanced students and teachers Its synthesis and critique of everything significant that had been written about the period was seen as monumental lucid and the fashioning of a new way of looking at colonialism and nationalism Sarkar however changed the face not only of modern Indian history monographs and textbooks he also radically altered the capacity of the historical essay As Beethoven stretched the sonata form beyond earlier conceivable limits Sarkar can be said to have expanded the academic essay In his hands the shorter form becomes in miniature both monograph and textbook The present collection which reproduces many of Sarkar s finest writings shows an intellectually scintillating skeptical Marxist mind at its sharpest here we see Sarkar grappling with his intellectual heritage negotiating his own location within the new Marxist nationalist history of the period Working within its frame he pushes at the boundaries disturbing neat classificatory schemes resisting false historical comparisons problematizing categories and questioning linear narratives The desire to explore contrary experiences and contradictory pictures is part of his process of questioning Neeladri Bhattacharya **Empire and Nation** Partha Chatterjee,2010-05-10 Partha Chatterjee is one of the world s greatest living theorists on the political cultural and intellectual history of nationalism Beginning in the 1980s his work particularly within the context of India has served as the foundation for subaltern studies an area of scholarship he continues to develop In this collection English speaking readers are finally able to experience the breadth and substance of Chatterjee s wide ranging thought His provocative essays examine the phenomenon of postcolonial democracy and establish the parameters for research in subaltern politics They include an early engagement with agrarian politics and Chatterjee s brilliant book reviews and journalism Selections include one never before published essay A Tribute to the Master which considers through a mock retelling of an episode from the classic Sanskrit epic The Mahabharata a deep dilemma in the study of postcolonial history and several Bengali essays now translated into English for the first time An introduction by Nivedita Menon adds necessary context and depth critiquing Chatterjee s ideas and their influence on contemporary political thought **Modern Approaches and Critical Perspectives in Indian Historiography** Dr. R.Rajeshwari,Dr. T. Santhi,2025-04-25 Modern Approaches and Critical Perspectives in Indian Historiography offers a thoughtful exploration of how India s past has been interpreted questioned and reimagined over time The book examines evolving methodologies debates and theoretical frameworks that have shaped the study of Indian history It engages with both traditional narratives and contemporary critiques encouraging readers to reflect on history as a dynamic and contested field Through detailed analysis and fresh perspectives this work serves as an essential resource for scholars students and anyone interested in understanding the complexities of historical writing in India A significant contribution to the evolving discourse of historiography **bibliographical survey of social reform movements in the eighteenth and nineteenth centuries ,** **Land of Two Rivers** Nitish Sengupta,2011-07-19 Land of

Two Rivers chronicles the story of one of the most fascinating and influential regions in the Indian subcontinent. The confluence of two major river systems, Ganga and Brahmaputra, created the delta of Bengal, an ancient land known as a centre of trade, learning, and the arts from the days of the Mahabharata and through the ancient dynasties. During the medieval era, this eventful journey saw the rise of Muslim dynasties which brought into being a unique culture quite distinct from that of northern India. The colonial conquest in the eighteenth century opened the modern chapter of Bengal's history and transformed the social and economic structure of the region. Nitish Sengupta traces the formation of Bengali identity through the Bengal Renaissance, the growth of nationalist politics, and the complex web of events that eventually led to the partition of the region in 1947, analysing why, despite centuries of shared history and culture, the Bengalis finally divided along communal lines. The struggle of East Pakistan to free itself from West Pakistan's dominance is vividly described, documenting the economic exploitation and cultural oppression of the Bengali people. Ultimately, under the leadership of Bangabandhu Mujibur Rahman, East Pakistan became the independent nation of Bangladesh in 1971. *Land of Two Rivers* is a scholarly yet extremely accessible account of the development of Bengal, sketching the eventful and turbulent history of this ancient civilization, rich in scope as well as in influence.

**The Origins of Dislike** Amit Chaudhuri, 2018-09-20. Strategic thinking for a writer articulates itself as dislike and as allegiance. In this wonderfully rich and diverse collection of essays, Amit Chaudhuri explores the way in which writers understand and promote their own work in antithesis to writers and movements that have gone before. Chaudhuri's criticism disproves and questions several assumptions: that a serious and original artist cannot think critically in a way that matters; that criticism can't be imaginative and creative; work contains radical argumentation; that a writer reflecting on their own position and practice cannot be more than a testimony of their work; but opens up how we think of literary history and reading. Illuminating new ways of thinking about Western and non-Western traditions, prejudices, and preconceptions, Chaudhuri shows us again that he takes nothing as a given: literary tradition, the prevalent definitions of writing and culture, and the way the market determines the way culture and language express themselves. He asks us to look again at what we mean by the modern and how it might be possible to think of the literary today.

*Writing Cultural History in Colonial and Postcolonial India* Henry Schwarz, 2016-11-11. During the colonial period in India, English historians portrayed the British conquest and domination of India as the realization of a historic destiny, absorbing the particular history of India into the overarching narrative of the Empire. When Indian scholars educated in the British system began to write their own histories of the period, they had to struggle to reclaim their past and to make the Indian people the subject of their history. Henry Schwarz explores this struggle through an analysis of Indian cultural histories written between 1870 and the present. Focusing on English language texts written by Bengali historians on the subjects of literature and culture, Schwarz critically analyzes landmark works of the genre and compares Indian writing about cultural heritage to the dominant forms of European historiography prevalent during the colonial period. Indian historians

incorporated European aesthetic standards and theories of history into their writing yet they managed to transform these ideas in ways that challenged British ideological domination Schwarz shows how in writing a distinctly Indian history of India they produced a unique historiographical style of great complexity deploying brilliant reconfigurations of the dominant themes styles ideologies and tropes that characterize acceptable modes of history writing in the West Moving from the late nineteenth century to the present Schwarz identifies six distinct modes of translation and transformation produced by these writers ranging from liberal nationalist text to those of writers associated with the Subaltern Studies project He analyzes the narrative modes employed during the period and traces the movement toward the metaphoric and ironic styles of the post Independence era Writing Cultural History in Colonial and Postcolonial India provides a needed counterweight to the emphasis on colonial discourse that has come to dominate recent postcolonial scholarship By examining how the colonized interpreted and transformed the experience of oppression through their own work this book represents postcolonial studies written from the other side

**Orientalism and Religion** Richard King,2013-04-03 Orientalism and Religion offers us a timely discussion of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology

**The Early Modern in South Asia** Meena Bhargava,Pratyay Nath,2023-01-05 Did modernity arrive in South Asia with British colonialism Or was South Asia already modern by then What might have that modernity looked like The Early Modern in South Asia engages with these questions It brings together ten chapters which collectively trace the contours of South Asia s early modernity between the sixteenth and eighteenth centuries They do this by examining the nature of historical change in various domains including philosophy warfare law environment politics violence religion and society The chapters argue that in all these fields there were noticeable developments during this period marking a shift from the medieval to the early modern The introductory chapter contextualizes this by analysing the politics of periodization in history writing across the world It discusses the meanings of the relatively new concept of early modernity and the implications of its use for how we understand historical change and continuity in South Asia

*Theatre Cultures within Globalising Empires* Joachim Küpper,Leonie Pawlita,2018-08-06 This
