Edney, 2025-07-10 The apparently centuries old field of the history of cartography was invented after 1950 through incomplete historiographies by leading map historians This monograph uses an empirically grounded analysis of the ways in which early maps have been systematically studied since the early 1800s to offer an innovative account of the practices and institutions of comparative map history in support of Western imperialism and nationalism and of how the field was reconfigured as the core of a newly idealized discipline of the history of cartography *Fundamentals of Cartography (Second Revised and Enlarged Edition)* R.P. Misra, 2014-01-01 The first edition of Fundamentals of Cartography was published in 1969 by Prasara University of Mysore It was reprinted by the Concept Publishing Company New Delhi in While the book remained in currency the cartographic processes changed drastically when information technology brought a sea of change in the sources of information drafting of maps and printing processes Drawing maps by hand became obsolete surveying whether ground or aerial was no longer the only major source of information In view of these changes it became necessary to bring out a new edition Realising that unless one knows directions scales projections coordinates ground and air surveys one would fail to understand the proper use of modern information technology in the drawing the maps Thus the contents of 1969 edition are retained and new chapters have been added to update the book In Part II of the book a chapter on Remote Sensing and Satellite Imagery has been added and Part V contains chapters on Computer Aided Cartography Geographic Information
