No More Ordinary Carolyn Burton McLeod,2014-04 Carol McLeod partners with the Word of God and the lives of victorious believers to show you how to obtain and maintain the full and wonderful life that God wants you to have Your life can be extraordinary Cover James Tucker,2005-07-01 Very few of the titles whether fiction or non take a serious analytical look at the Bible as a biblical scholar or theologian would This is where God s Inferno differs from the majority It utilizes logical rational reasoning to analyze what that Bible actually says not what most have been lead to believe It seriously attacks the present Christian faith as their tenants and doctrines are based on a very faulty interpretation of what the Bible actually says It maintains and proves the god of the Old Testament is not the Supreme God but merely what the Jewish people of Israel pictured their god to be Naturally if he is not the Supreme God then Jesus is not the Son of that Supreme God but may have been the son of that hateful murderous vengeful god of the Old Testament From the founding of Christianity it traces its impact through the first 1500 1600 years of the Catholic Church the keepers of the faith during that time It documents the Crusades the Inquisitions and the Reformation as well as the many married priests Popes who fathered children and under aged leading fathers of the Church Finally it attempts to motivate the indifferent Christian to utilize his God given mind to seriously think about what they actually believe and to conduct their lives according to that belief

Singularity Sky Charles Stross,2004-06-29 In a technologically suppressed future information demands to be free in the debut novel from Hugo Award winning author Charlie Stross In the twenty first century life as we know it changed Faster than light travel was perfected and the Eschaton a superhuman artificial intelligence was born Four hundred years later the far flung colonies that arose as a result of these events scattered over three thousand years of time and a thousand parsecs of space are beginning to rediscover their origins The New Republic is one such colony It has existed for centuries in self imposed isolation rejecting all but the most basic technology Now under attack by a devastating information plague the colony must reach out to Earth for help A battle fleet is dispatched streaking across the stars to the rescue But things are not what they seem secret agendas and ulterior motives abound both aboard the ship and on the ground And watching over it all is the Eschaton which has its own very definite ideas about the outcome **Dark Side of The Ocean: 47 Book Collection**
