**Niagara-on-the-Lake** Ronald J. Dale, 1999 Niagara on the Lake is one of Southern Ontario's most picturesque towns with a wide main street with its clock tower lovingly restored homes and shops tall shade trees and luxuriant gardens What many visitors don't realize is that the town is also steeped in history Historian and Niagara resident Ronald J Dale treats the town's past in a lively informal style This richly illustrated history tells the story of Niagara on the Lake from its origins as a haven for Loyalist refugees in the eighteenth century to its growth as a fashionable resort today A chapter is devoted to the Shaw Festival and appendices offer a Shaw production history and three tours of the town Striking contemporary photographs and rare archival images complement the text making Niagara on the Lake a fascinating book for residents and visitors alike

Ghosts of Niagara-on-the-Lake Maria Da Silva, Andrew Hind, 2018-07-28 A new expanded edition detailing Niagara on the Lake's ghostly inhabitants Long dead British soldiers grieving lovers lingering spirits Niagara on the Lake's long and colourful history is kept alive by ghosts of its past Through historical investigation and eyewitness accounts Andrew Hind and Maria Da Silva share over two dozen ghostly tales a murdered British officer haunts the Olde Angel Inn a ghostly widow retaliates against couples a condemned ghost at the old courthouse pleads his innocence and ghostly guests at the Prince of Wales Hotel have no desire to check out Some have called Niagara on the Lake Canada's most haunted town and with so much of its built heritage preserved the community clearly makes the perfect haunt for age old spirits

**The Electric Pullman** Lawrence A. Brough, 2013-04-18 A history of the Ohio railroad car and equipment company and its 16 year run Entering an already crowded and established industry the Niles Car Manufacturing Company in Ohio began business with surprising success producing well over 1 000 electric and steam railway cars cars so durable they rarely needed to be replaced That durability essentially put the company out of business and it vanished from the scene as quickly as it had appeared leaving little behind except its sturdy railway cars The story of this highly regarded company spans just 16 years from Niles's incorporation in 1901 to the abandonment of railway car production and sale of the property to a firm that would briefly build engine parts during World War I Including unpublished photographs and rosters of railway cars produced by the company and still in existence in railroad museums The Electric Pullman will appeal to railroad enthusiasts everywhere Praise for The Electric Pullman Required reading for anyone interested in interurban history It holds additional appeal for those interested in Ohio history or the junction point between business society and technology Lexington Quarterly Although not one of the major manufacturers in its field the Niles company produced some notable and well remembered equipment during the height of the electric interurban railway era Indeed among some interurban railway historians Niles cars are sacred objects As such its story deserves to be told and theoretically would be a logical complement to IUP's books on the Brill and Jewett companies Brough himself is a serious historian who knows his subject and has clearly mined all the sources that seem to exist Herbert H Harwood Jr author of The Railroad that Never Was and The New York Westchester Boston
