Interpreting in Nazi Concentration Camps Michaela Wolf, 2016-07-28 This significant new study is concerned with the role of interpreting in Nazi concentration camps where prisoners were of 30 to 40 different nationalities With German as the only official language in the lager communication was vital to the prisoners survival While in the last few decades there has been extensive research on the language used by the camp inmates investigation into the mediating role of interpreters between SS guards and prisoners on the one hand and among inmates on the other has been almost nonexistent On the basis of Primo Levi s considerations on communication in the Nazi concentrationary system this book investigates the ambivalent role of interpreting in the camps One of the central questions is what the role of interpreting was in the wider context of shaping life in concentration camps And in what way did the knowledge of languages and accordingly certain communication

skills contribute to the survival of concentration camp inmates and of the interpreting person The main sources under investigation are both archive materials and survivors memoirs and testimonials in various languages On a different level Interpreting in Nazi Concentration Camps also asks in what way the study of communication in concentration camps enhances our understanding of the ambiguous role of interpreting in more general terms And in what way does the study of interpreting in concentration camps shape an interpreting concept which can help us to better understand the violent nature of interpreting in contexts other than the Holocaust
