## **Notre Jeunesse Precede Par De La Raison:**

, Jews and Christians on Time and Eternity Annette Aronowicz, 1998 This book grapples with a wide range of contemporary ethical and religious issues through the lens of the reflections of Charles Péguy on his friend and mentor Bernard Lazare Both Péguy a leading French Catholic poet and philosopher and Bernard Lazare an iconoclastic Jewish intellectual were passionately involved in the Dreyfus Affair which forms the background of these reflections The book is in four parts The first sets Péguy's portrait of Bernard Lazare in a series of contexts analyzing it against the background of the rampant antisemitism of its time situating it in relation to present day discussions about the Other and especially placing it within various twentieth century attempts to rethink religion Péguy's great contribution in this area lies in redirecting our attention to the ways human beings respond to defeat and to the ways the intellect is oriented by something outside itself as keys to the discovery of the transcendent His work reformulates the meaning of hope and incarnation The second part of the book presents Péguy's portrait of Bernard Lazare in a complete English translation In the third part the author shows the affinity of Péguy's thought to that of two Jewish thinkers Franz Rosenzweig and Emmanuel Levinas All three in rethinking the religious dimension located it amidst the daily interactions between people The final part explores the implications of this notion of transcendence for the task of interpretation in the social sciences and the humanities *Self-Presentation and Representative Politics* Derek Robbins, 2022-01-11 Through six articles written at intervals of about a decade between 1960 and 2020 the book provides an account of the author's developing political awareness during the period in the context of political events and changes In this way the book illustrates the social origins of political attitudes while at the same time the articles raise questions about the increasing dominance of political discourse in society The book suggests that politics is now excessively managed by political professionals and that the challenge for reviving democratic participation is to restore the social dimension of state membership

L'énergie de Jaurès ne s'absorbe pas tout entière dans la direction de la Petite République ni dans des articles d'actualité politique. Jaurès retrouve le temps de la recherche des lectures et de la réflexion théologiques et historiques. Elles le ramènent vers les deux grandes sources d'inspiration que sont alors pour tout socialiste la Révolution française et l'œuvre de Karl Marx. De ce travail inlassable naissent deux grandes œuvres : l'Histoire socialiste de la Révolution française et les études socialistes. On trouvera ici la rédaction complète de ce dernier ouvrage.

*La connaissance mystique* Frédéric Nef, 2018-04-27. Et si la mystique souvent considérée comme une expérience de l'inconnaissable obéissait au contraire aux normes communes de toute expérience ? C'est là que se pose la question de l'éveloppe. Frédéric Nef applique la mystique aux normes de la connaissance en ce qui concerne d'abord la justification des croyances et le rôle du premier de la perception pour affirmer l'existence d'une connaissance mystique et cerner son objet : l'essence ou la bienveillance de Dieu. Cette lecture va donc contre courant de la manière actuelle de concevoir la mystique : un territoire ineffable pour les enfants perdus en rapatriant la connaissance mystique sous l'autorité rétrice d'une philosophie générale et en favorisant des comparaisons fructueuses avec la physique et la métaphysique. Dans son argumentation exigeante, l'auteur prend en compte tant les mouvements de la théologie mystique que des phénomènes mystiques, les stigmates, les sens spirituels et des techniques spirituelles, l'aspiration ou la suspension. En ce sens, ce livre est également la cartographie de tout un monde dont il cerne l'émergence splendide puis le tragique retrait. Un véritable ouvrage-l'œuvre d'une vie.

**Contre Jupiter** Julien Autiero, 2019-09-20T00:00:00Z. La mesure est la meilleure des choses : disait Cléobule, prends la raison comme guide. Professeur Solon aime l'instruction, la modération, la prudence. Conseillait Pittacos de Mytilène : fais preuve de mesure, avertissait Thalès : la prudence en toute chose recommandait Périandre de Corinthe. Telles étaient ces sentences que les Sages et les gislateurs grecs prodiguaient entre 620 et 550 avant J.C. pour mener une vie bonne et conjurer ce mal contemporain : si intemporelle la mesure humaine. Dans sa réflexion sur le politique, Platon n'a pas formulé que le gislateur devait être au corps social ce que le médecin doit être au corps humain. En réponse à Emmanuel Macron, cet appel en faveur d'un renouveau français entend exposer que loin de la médecine de par sa fidélité envers cette religion matérialiste du Marché Providence, la politique poursuivie depuis le 7 mai 2017 est au contraire en osmose avec ce nouveau spectre qui hante le monde. Face à cette intemporalité qui retrace cette lancinante tentation de l'homme vouloir rivaliser avec le divin, les Anciens Grecs proposaient une autre intemporalité : celle gravée sur le fronton du temple de Delphes.
