Notsostill Life:

The Not-So-Still Life Susan Landauer, William H. Gerdts, Patricia Trenton, 2003-11-10 Presenting interpreting and celebrating the world renowned and the lesser known California artists who have uniquely defined and redefined the still life this volume offers an exploration of the sensual pleasures the aesthetic challenges and the intellectual and perceptual associations of a century of art through the prism of a single genre **BOOK JACKET** **My Not-So-Still Life** Liz

Gallagher, 2011 Artistic Vanessa has never tried to fit in counting the days until she reaches adulthood but when her first job introduces her to James who leads her into new sometimes risky situations she wonders if she is ready to be grown up

Jimmy Ernst Donald Burton Kuspit, Jimmy Ernst, 2000 This long overdue monograph relates the fascinating story of the son of great surrealist master Max Ernst and a Jewish mother killed in the Holocaust **Max Ernst and Alchemy** M. E. Warlick, 2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst's work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst's works as it affirms his standing as one of Germany's most significant artists of the twentieth century *Jewish Ideas of France* Meredith Scott, Nick Underwood, 2025-06-12 This innovative exploration of Jewish experiences in France and the Francophone world through nuanced questions and representations offers an intertwining of perspectives that challenge geographical chronological and theoretical boundaries Engaging the transnational it brings together studies highlighting the importance of migration diaspora identity and empire for Jewish communities in metropolitan France and beyond New and emerging scholars are invited into conversation with established thinkers to capture the present and future of French Francophone and Jewish Studies Because identities are layered and multifaceted the multidisciplinary studies in this volume are intended to illustrate how frameworks interact overlap and shift The result of these efforts is a collection of essays that reveals the complex interplay between French and Jewish identities and how they have changed over time Grounded in historical literary visual sociological and legal analyses they delve into questions of gender race religion empire migration culture and communal life Taken together they problematize the categories often created to make meaning of complex dynamics This book is an
