Mark Johnston,2017-07-31 The trees which line many of the streets in our towns and cities can often be regarded as part of a heritage landscape Despite the difficult conditions of an urban environment these trees may live for 100 years or more and represent living history in the midst of our modern streetscapes This is the first book on the history of Britain s street trees and it gives a highly readable authoritative and often amusing account of their story from the tree lined promenades of the seventeenth century to the majestic boulevards that grace some of our modern city centers The impact of the Victorian street tree movement is examined not only in the major cities but also in the rapidly developing suburbs that continued to expand through the twentieth century There are fascinating descriptions of how street trees have helped to improve urban conditions

in spa towns and seaside resorts and also in visionary initiatives such as the model villages garden cities garden suburbs and new towns While much of the book focuses on the social and cultural history of our street trees the last three chapters look at the practicalities of how these trees have been engineered into concrete landscapes This includes the many threats to street trees over the years such as pollution conflict with urban infrastructure pests and diseases and what is probably the greatest threat in recent times the dramatic growth in car ownership Street Trees in Britain will have particular appeal to those interested in heritage landscapes urban history and the natural and built environment Some of its themes were introduced in the author s previous work the widely acclaimed *Trees in Towns and Cities A History of British Urban Arboriculture* The Birds of Nottinghamshire Nick Crouch,Jason Reece,Bernie Ellis,Chris du Feu,David Parkin,2019-11-29 The last comprehensive review of Nottinghamshire s birds was produced more than four decades ago Much has changed since then and a new avifauna is long overdue This book draws together historic reports from the nineteenth century records from the files of the county bird club Nottinghamshire Birdwatchers and data from national and regional surveys and monitoring programmes The resulting account presents an overview of the present state of the county s birdlife set against a context of environmental and climatic change The gravel pits in the Trent and Idle Valleys form major corridors for birds moving across Britain and Nottinghamshire has attracted more than its share of national rarities These include Britain s first Egyptian Nightjar and Lesser Yellowlegs in the nineteenth century Bufflehead Redhead Cedar Waxwing and breeding Black winged Stilts in the twentieth century and a memorable nesting attempt by European Bee eaters in 2017 The woods and heaths of Sherwood lying in the middle of the county also provide a haven for an array of iconic species including European Nightjar Eurasian Woodcock Honeybuzzard and Hawfinch This book describes the past and present status of the 334 species that have been recorded in Nottinghamshire up to 2018 Lavishly illustrated with photographs taken within the county and sketches from the internationally recognised artist Michael Warren it is intended to be an authoritative reference to the birds of Nottinghamshire Actors and Performers Yearbook 2019 Lloyd Trott,2018-10-18 This well established and respected directory supports actors in their training and search for work on stage screen and radio It is the only directory to provide detailed information for each listing and specific advice on how to approach companies and individuals saving hours of further research From agents and casting directors to producing theatres showreel companies photographers and much more this essential reference book editorially selects only the most relevant and reputable contacts for the actor With several new articles and commentaries Actors and Performers Yearbook 2019 features aspects of the profession not previously covered as well as continuing to provide valuable insight into auditions interviews and securing work alongside a casting calendar and financial issues This is a valuable professional tool in an industry where contacts and networking are key to career survival All listings have been updated alongside fresh advice from industry experts The Bioscope ,1913
