

Nottingham's Royal Castle

J. V. Beckett, Ken Brand

Nottinghams Royal Castle:

Nottingham's Royal Castle Andrew Hamilton, 19?? **The History of Nottingham Castle** John Hicklin, 1836 *Secret Nottingham* Joseph Earp, Frank E. Earp, 2016-05-15 Explore Nottingham's secret history through a fascinating selection of stories, facts and photographs **Greater Medieval Houses of England and Wales, 1300-1500: Volume 2, East Anglia, Central England and Wales** Anthony Emery, 1996 The second volume of a massive illustrated survey of the greater houses of medieval England and Wales first published in 1996 *History and antiquities of Nottingham* James Orange, 1840
History and Antiquities of Nottingham James ORANGE (Minister of the Gospel.), 1840 *Old Nottinghamshire* John Potter Briscoe, 1881 **Castles and Landscapes** O. H. Creighton, 2005 This paperback edition of a book first published in hardback in 2002 is a fascinating and provocative study which looks at castles in a new light using the theories and methods of landscape studies **Late Medieval Castles** Robert Liddiard, 2016 A collection of the most significant articles in castle studies with contributions from scholars in history, archaeology, historic buildings and landscape archaeology. The castles of the late medieval period represent some of the finest medieval monuments in Britain with an almost infinite capacity to fascinate and draw controversy. They are also a source of considerable academic debate. The contents of this volume represent key works in castle scholarship. Topics discussed include castle warfare, fortress customs, architectural design and symbolism, spatial planning and the depiction of castles in medieval romance. The contributions also serve to highlight the diversity of approaches to the medieval castle ranging from the study of documentary and literary sources, analysis of fragmentary architectural remains and the recording of field archaeology. The result is a survey that offers an in-depth analysis of castle building from the thirteenth to the fifteenth centuries and places castles within their broader social, architectural and political contexts. Robert Liddiard is Professor of History, University of East Anglia. Contributors: Nicola Coldstream, Charles Coulson, Philip Dixon, Graham Fairclough, P A Faulkner, John Goodall, Beryl Lott, Charles McKean, T E McNeill, Richard K Morris, Michael Prestwich, Christopher Taylor, Muriel A Whitaker **Battlefield Walks in the Midlands** Brian Conduit, 2004 The combination of country walking with visits to battlefields is a most rewarding experience. The Midlands has played a prominent part in the military history of England and the events that form the basis of the 22 walks in this guide range from the 13th to the 20th centuries from the Battle of Evesham 1265 to the bombing of Coventry 1940
The Westminster Review, 1840 *The London and Westminster Review*, 1840 *Nottingham* J. V. Beckett, Ken Brand, 1997 Nottingham's history has encompassed more than Robin Hood, lace, Luddites and Lawrence bikes, baccy and Brian Clough. Founded as an Anglian settlement on the north side of the River Trent, Nottingham's royal castle placed it at the crossroads of England and English history through the medieval centuries and during the English Civil War **Defending Nottinghamshire** Mike Osborne, 2014-04-07 This book examines the impact of military events on Nottinghamshire's landscape from prehistoric hill forts to Cold War bunkers. Straddling the valley of the Trent, Nottinghamshire has long

enjoyed a strategic importance as a frontier region in the early days of the Roman conquest and during the struggles between the emerging Saxon kingdoms and the Danes The Normans built castles to pacify the land as did the kings and barons involved in the dynastic struggles which characterised long periods of medieval times Throughout the Civil War it provided a battleground for Parliamentary forces seeking to sever the Royalist communications centred on Newark upon Trent In the twentieth century it provided training camps for Kitchener's New Armies munitions factories and both training and operational airfields This book describes the evidence function and purpose of defensive structures and records survivals

Black's Guide to Nottinghamshire, 1876 **Castles of England** John Paul Davis, 2021-10-30 In 1051 a monk of Canterbury Cathedral made a bizarre observation in what would eventually form part of the Anglo Saxon Chronicle In his chronicling of the year's events he described the establishment of a new fortification in Herefordshire by French members of the king's party More sophisticated than the typical Saxon burh the word provided was alien to his vocabulary In Latin its builders had christened it castellum Little did anyone at the time know this unique building would mark a drastic change in the direction of England's history For almost a thousand years the castles of England have stood proudly over her landscape While many bear the scars of centuries of warfare others continue to enjoy a far more comfortable existence They are the sites of bloody sieges The windswept ruin The royal palace The home of knights and nobility The local museum The posh hotel Though we all recognise a castle when we see one no two are ever exactly alike By digging deep into the history of England's mighty castles the purpose of this book is to throw light on those who lived there For as long as there have been castles in England there have been mysteries within their walls murders that were never solved treasures that remain unfound prisoners left to rot in the ghastliest pits or executions worthy of lasting infamy From unfortunate victims to long lost legends infamous owners to ladies in grey *Castles of England* offers a fresh investigation into many of those tales that will forever be the cause of intrigue for visitors To understand who they were is to understand the story of the castle in England To understand the castle in England is to understand England **Post Office Directory of Derbyshire and Nottinghamshire**, 1881 Transactions of the Thoroton Society of Nottinghamshire Thoroton Society, 1898 List of members in each volume *The Reign of Edward II* Gwilym Dodd, Anthony Musson, 2006 A new review of the most significant issues of Edward II's reign Edward II presided over a turbulent and politically charged period of English history but to date he has been relatively neglected in comparison to other fourteenth and fifteenth century kings This book offers a significant re appraisal of a much maligned monarch and his historical importance making use of the latest empirical research and revisionist theories and concentrating on people and personalities perceptions and expectations rather than dry constitutional analysis Papers consider both the institutional and the personal facets of Edward II's life and rule his sexual reputation the royal court the role of the king's household knights the nature of law and parliament in the reign and England's relations with Ireland and Europe Contributors J S HAMILTON W M ORMROD IAN MORTIMER MICHAEL PRESTWICH

ALISTAIR TEBBIT W R CHILDS PAUL DRYBURGH ANTHONY MUSSON GWILYM DODD ALISON MARSHALL MARTYN LAWRENCE SEYMOUR PHILLIPS **St Stephen's Chapel and the Palace of Westminster** Tim Ayers, J P D Cooper, Elizabeth Hallam Smith, Caroline Shenton, 2024-10

Traces the history of a magnificent landmark in the history of late medieval art and architecture As the principal royal chapel in the medieval Palace of Westminster St Stephen's was at the centre of worship for the Plantagenets a major collegiate foundation of a new kind for the mid fourteenth century and a community of national significance in the development of sacred polyphony During the Reformation the Chapel was converted into a meeting place for the House of Commons which it remained for 300 years shaping the development of British political culture Its influence continues to be felt today in the design of the Commons chamber Following the disastrous Palace fire of 1834 the site of the upper chapel was rebuilt as St Stephen's Hall a gallery of national history leading to the Central Lobby of the Houses of Parliament This book tells the story of St Stephen's Chapel from the thirteenth century to the present day Sixteen chapters explain the building and its religious life its political significance and the antiquarian rediscovery of its former magnificence Contributors highlight the interaction between visual and political culture the contexts of kingship and international rivalry that informed the foundation and construction of chapel and college the effect of medieval St Stephen's on the development of the House of Commons the adaptation and re use of St Mary Undercroft and the creation of St Stephen's Hall in the 1840s The hall would become a site of Suffragette activism in the campaign for Votes for Women marked today by a monumental artwork New Dawn which is the focus of the final chapter
