Nouveau dictionnaire analogique du français Daniel Delas, 1971 Manual of Standardization in the Romance Languages Franz Lebsanft, Felix Tacke, 2020-01-20

Language standardization is an ongoing process based on the notions of linguistic correctness and models. This manual contains thirty six chapters that deal with the theories of linguistic norms and give a comprehensive up to date description and analysis of the standardization processes in the Romance languages. The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present and includes individual chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric in the Prague School in the linguistic theory of Eugenio Coseriu in sociolinguistics as well as in pragmatics cognitive and discourse linguistics. The second section focuses on the application of these notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well established written tradition i.e. Romanian Italian French Catalan Spanish and Portuguese. Furthermore the volume offers a discussion of the key issues regarding the standardization of the minor Romance languages as well as Creoles.

Using French Vocabulary Jean H. Duffy, 1999-03-11

This textbook provides a comprehensive and structured vocabulary for all levels of undergraduate French courses including relevant higher and further education courses. It offers a broad coverage of concrete and abstract vocabulary relating to the physical cultural social commercial and political environment as well as exposure to commonly encountered technical terminology. Within each section words and phrases have been grouped into manageable assimilable units and broadly graded according to likely usefulness and difficulty. The accompanying exercises for private study and classroom use are designed to reinforce the work done on lists to develop good dictionary use to encourage independent and collaborative learning to promote precision and awareness of nuance and register and to offer the opportunity for the development of cognate transferable skills such as communicative competence teamwork and problem solving. The division of the book into twenty thematic sections allows it to be easily integrated into a modular course structure.
