Northrop Frye and American Fiction Claude Le Fustec, 2015-01-15 Northrop Frye and American Fiction challenges recent interpretations of American fiction as a secular pursuit that long ago abandoned religious faith and the idea of transcendent experiences Inspired by recent philosophical thinking on post secularism and by Northrop Frye's theorizing on the connections between the Bible and the development of Western literature Claude Le Fustec presents insightful readings of the presence of transcendence and biblical imagination in canonical novels by American writers ranging from Nathaniel Hawthorne to Toni Morrison Examining these novels through the lens of Frye's ambitious account of literature's transcendent or kerygmatic power Le Fustec argues that American fiction has always contained the seeds of a rejection of radical skepticism and a return to spiritual experience Beyond an insightful analysis of Frye's ideas Northrop Frye and American Fiction is powerful testimony of their continued interpretive potential *Within the Love of God* Anthony Clarke, Andrew Moore, 2014 David C Parker looks at how new methodology changes what an edition is for and how we use it using the example of the New Testament texts **Theology and the Victorian Novel** James Russell Perkin, 2009 Religious issues played a prominent role in Victorian England and had a profound influence on the culture of that period In Theology And The Victorian Novel J Russell Perkin shows that even the apparently secular world of the realist novel is shaped by the theological debates of its time Beginning with a wide ranging introduction that explains why a theological reading of Victorian fiction is both rewarding and timely Perkin also addresses religion's return to prominence in the twenty first century confounding earlier predictions of its imminent demise Chapters on William Thackeray Charlotte Bront Charlotte Yonge Anthony Trollope George Eliot and Thomas Hardy are followed by a concluding discussion of Mary Ward and Walter Pater that relates Pater's Marius the Epicurean to postmodern theology and shows how it remains a religious classic for our own time Informed by extensive knowledge of the religion and culture of the period Theology And The Victorian Novel significantly alters the way that the Victorian novel should be read Spiritual Warfare Alistair Cuthbert, 2025-07-29 Continuous global news coverage reveals the relentless and pervasive ongoing nature of evil human action and its impact on persons communities and countries around the world Whether it is world wide human trafficking global arms dealing dehumanizing sweat shops country wide genocides and so on there is no shortage of evidence to suggest that there is much evil conflict suffering pain and loss on this planet For the Christian there is the added challenge of trying to reconcile this marred world with a belief in an all powerful and benevolent deity Stories from the persecuted church reveal that the Christian church is not immune to these evil powers and principalities that are stoking up as much chaos here on earth as they possibly can Spiritual Warfare A Charismatic Baptist Theology of Participating in Divine Conflict attempts to try and help to make sense of the presence of the God in a world beset by evil and strife Using the extensive theological corpus of British Baptist scholar Paul S Fiddes Spiritual Warfare articulates a doctrine of God which can remain intact when situated in

the world as we know it and help make sense of evil that has not yet been eradicated by God *Theology and the University*
Fáinche Ryan, Dirk Ansorge, Josef Quitterer, 2024-04-01 Theology and the University presents a compelling argument as to why theology still matters. It considers how theology has been marginalised in the academy and in public life, arguing that doing so has serious repercussions for the integrity of the academic study of religion. The chapters in this book demonstrate how theology, as the only discipline which represents religion from within, provides insight into aspects of religion which are hidden from the social sciences. Against a backdrop of heated debates on the role of the humanities in the university, the book highlights the specific contribution of theological education and research to the work of a university, providing essential information for academic and social political decision making. Whilst the book has an emphasis on the Catholic tradition, it explores the prospect of fruitful complementarity and interdisciplinarity both with secularised studies of religion and other disciplines in the university, such as literature, philosophy and the social sciences. This book provides orientation for decision makers, particularly those concerned with the broader question of humanities in the university, students in their choice of study, those interested in the wellbeing of today's universities, and ecclesial authorities seeking to form leaders capable of intelligent responses to the issues of contemporary society. It is a must read for all researchers of theology, as well as anyone interested in the role of the humanities more broadly. The Encyclopedia of Contemporary American Fiction, 2 Volumes
